Example Of Introduction, Indonesia is a big country which has a tremendous population. At least 250 millions people live in this whole archipelago area. It has a legend title which is very popular. As was sung by Koes Plus, "people said that our land is a paradise land, wooden stick and stone becomes plants." There are others similar compliment, one of them is 'the emerald equator', and so on. It shows how wealth this country is. However, in vise versa, all of us know well about the real condition of the society's welfare in Indonesia. There are so many jobless people and job vacancy that cannot pervade all of workers. It is very awful.

There are many assumptions that Indonesian society mentality is agrarian, worker, and only can be labour not a leader or activator. That assumption can be right. The fact is that work community level is dominated by the young generation who look for job vacancy,

while the job opportunity which provided by the government is not match with the flow of school and university graduates.
