| Prompt: In your own words, reflect on what you now think the difference is between love and lust. | Prompt: Write about how confident or not confident you felt during the review game. Then, tell me one of the answers you selected from the review game that you/your team got wrong. Finally, tell me what you will do next time to better prepare for a review game like this. (If you got none wrong, then write about how you prepared for today's class.) |
