

My Story

The abuse took place when he was 28 and I was 17 (2021). We knew each other because we are cousins.

We started speaking regularly after he approached me at a family gathering and asked me for my discord. Right before that I went through a pretty traumatic breakup and was ramping up into a psychosis episode so I was not in a great state of mind. I opened up to him about being groomed in the past and how my home life was not great, he took on this role of a "savior" and we'd regularly hang out with each other. Right off the bat he'd speak openly about his fetishes and past sexual encounters, even saying once: "I shouldn't be telling my cousin these things.". He knew I was 17. Then he started getting touchy. Goodbye hugs turned into holding my hand when difficult conversations came up. I think things started to get sexual after I came home from a psych ward visit (he picked me up as I couldn't drive) and his parents went on vacation leaving the house to himself. I told him I was essentially trauma bonded to him and confused if I had feelings for him vs not knowing what a familial relationship is supposed to be like since I've never had a stable familial unit and am used to older male figures grooming me.

He invited me over when his parents were on vacation and within an hour of me being there things got sexual. He initiated it and I felt like I didn't have a choice. He just pulled down my pants, touched me and then said "since you're sharing I might as well too" and exposed himself to me. His brother actually came over and he told me we needed to stop and act normal while he was over then immediately went back to touching me after he left. Once he was done he excused himself to the bathroom leaving me on the couch shaking and having a panic attack essentially. He got very cold afterwards and while he was taking me home he said "it's probably going to be a one and done situation".

It happened multiple times again after that. He bought me gifts and was very affectionate in person but would instantly go cold after cumming. He would actively be messaging/seeing people on tinder while molesting me. One woman he was seeing had kids even younger than me but thank God that didn't work out. Things stopped when he began dating a person who turned 18 literally a month previous. He told me he did what he did to me because "he felt bad for me".

I was told explicitly multiple times not to tell anyone what was happening and act normal around our family. He let me into his server and gave me the NSFW role despite being underage and told me not to tell anyone.

DDLC played an active role in the grooming process. He found out I struggled with self harm and he would praise my scars and kiss them. He self harmed because of Yuri as well. If I indulged in his

"interests" (which were literally copied from Yuri, so knives, tea, purple hair etc) he would give me more attention and praise me. I said once to him that I thought he was maybe grooming me, his response was to cry and hug me, begging me not to "expose him" because he saw another person in the DDLC community get excommunicated from the community for grooming accusations. He tried to act holier than thou compared to my previous groomers saying he wasn't anything like them while he was.. grooming me. Around June 2021 I decided to tell my mother what was happening and all contact with him was removed. I lied and told him that the reason we aren't allowed to hang out anymore was due to my mother being upset about him being an LGBT ally/my mom went through my phone and found out that there were sexual relations.

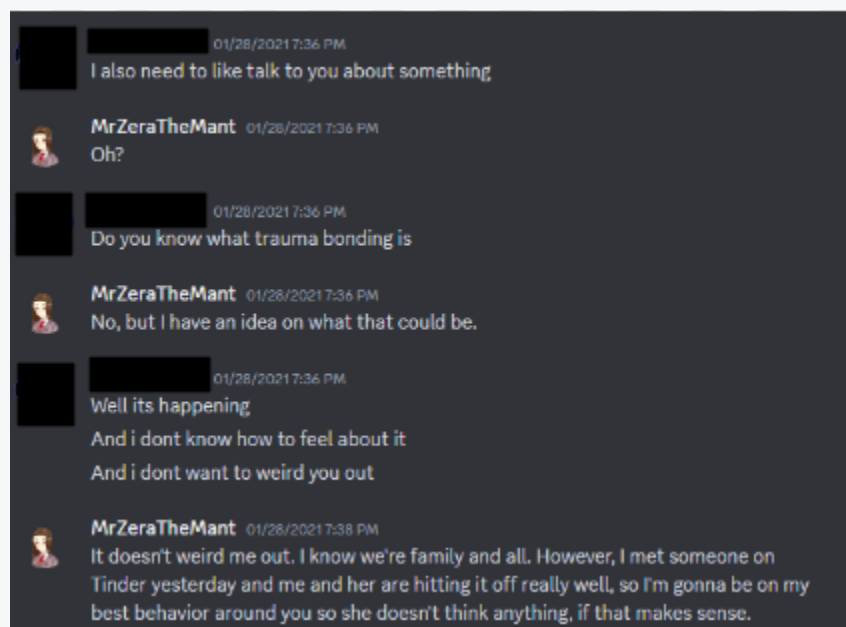

I am tired of living in fear everyday and suffering from the consequences of his actions.

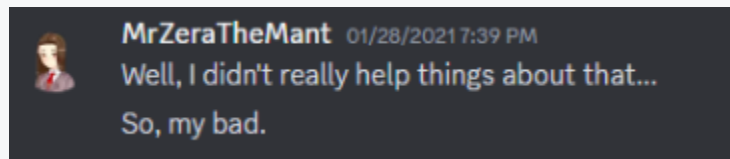

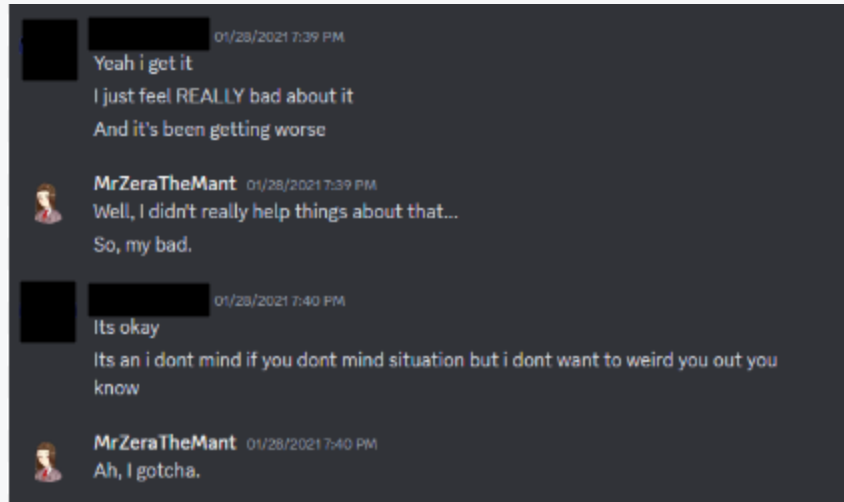

*****I use he/him pronouns*****

I identified as nonbinary (they/them exclusively) during this time

January 2021

Fresh out of the psych ward and in active psychosis, 17 year old me trauma bonded to my cousin. Being open about my "feelings", I really just wanted a stable family member to help me through a tough time. I wish that's what happened.

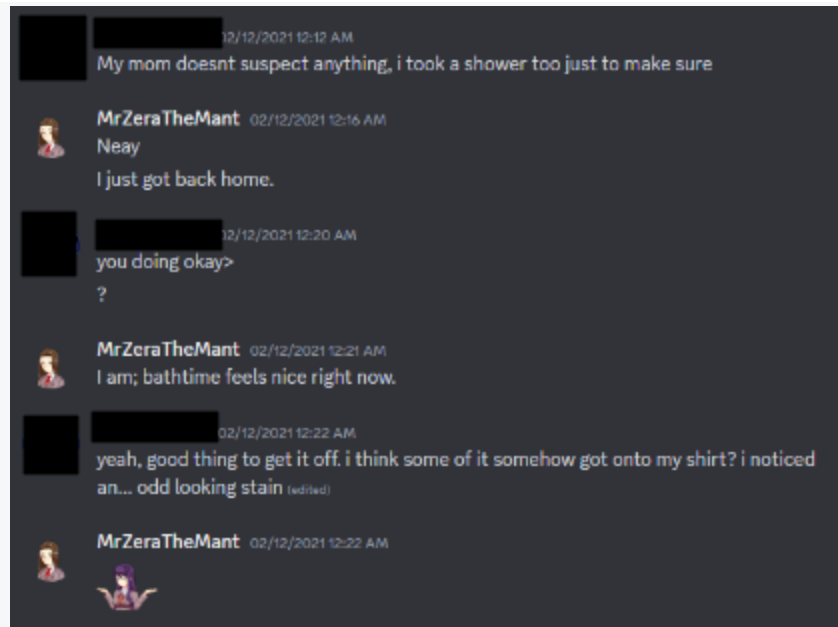

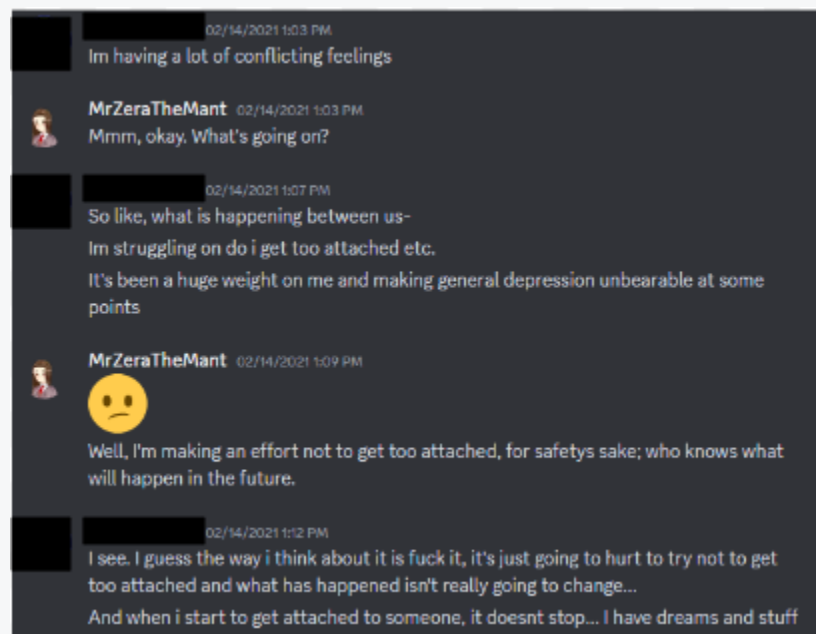

In reference to getting touchy with me beforehand (holding my hand, long hugs etc)

February 2021

First sexual encounter occurs. Starts kissing me, puts his hands down my pants and pulls them off. Says "since you're sharing I might as well" and exposes himself to me. I was in a house alone with him, he was my transportation to get home and I felt I had no choice. Stops because his brother comes over, told me to "act normal", then continues again once his brother left. After he finished, he left me crying and shaking on the couch. Returned now acting cold towards me. On the drive home he told me it's probably a "one and done situation". Says we need to distance ourselves for "safety".

Directly after dropping me off. I was disassociated and in shock. I cringe looking at this now, screaming at my 17 year old self to get away from this guy.

Ah, I gotcha.

 01/28/2021 7:41 PM
aaa sorry i just dont want to ruin things

 **MrZeraTheMant** 01/28/2021 7:42 PM
I don't think things will be. 😊

 01/28/2021 7:42 PM
okay cool
I gotta ask but if something does happen are you okay with that?

 **MrZeraTheMant** 01/28/2021 7:43 PM
Hmm... I'm not sure how I'd feel about it.

 **MrZeraTheMant** 01/28/2021 7:44 PM
And I'll say, I may have got a little flustered around you at times when I probably shouldn't have.

 01/28/2021 7:44 PM
I could tell and thats why it was really bothering me
Not meaning like in a bad way
Just struggling with my own feelings

 **MrZeraTheMant** 01/28/2021 7:45 PM
Besides, our family would probably disown us or something.
Knowing ours

 01/28/2021 7:46 PM
They already would finding out im bisexual lol
Its just what's there to lose situation for me, im not close to family anyways and not like id say anything

 **MrZeraTheMant** 01/28/2021 7:47 PM
I hear ya. Unfortunately it's not like that on my end. Also, your age is a thing as well.

 **MrZeraTheMant** 02/14/2021 1:18 PM
Mmm, I get what you're saying. I'm still standing my ground with trying not to get too attached.

 02/14/2021 1:25 PM
Okay, i get it. It probably isnt a good time now anyways, maybe when im 18 and more independent from my mom it wont be such a big issue with worrying about being caught

 **MrZeraTheMant** 02/14/2021 1:32 PM
Sorry if I came off as rude or mean or anything.

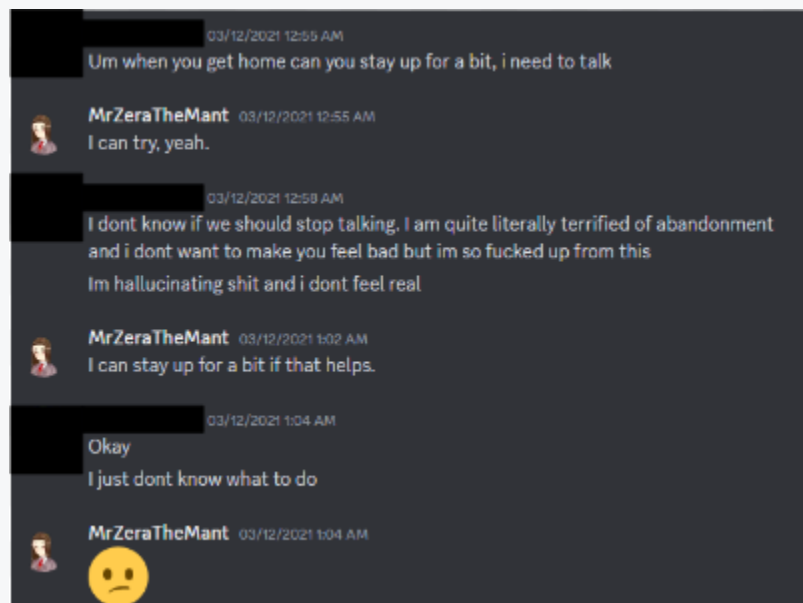

He had previously mentioned in person that his biggest fear is getting me pregnant.

He deleted the message but I asked if the condom broke.

March 2021

"Distance" fails. I have a mental breakdown realizing the gravity of the situation.

MrZeraTheMant 03/12/2021 1:04 AM

I'm certain everything will be alright.

Maybe your dissociating right now? I bet a good nights sleep should help.

03/12/2021 1:09 AM

Adam, im gonna be honest and i think youre grooming me. None of this is normal and this has happened to me before

You may have done it without realizing but this fucks a person up bad

Im not saying that out of spite, i have nothing but love for you man but this really isnt healthy and i see it now

MrZeraTheMant 03/12/2021 1:12 AM

I understand. I'm really sorry about that, and I'll try to make a conscious effort to stop doing that.

03/12/2021 1:13 AM

You failed me as an adult man

This is fucking me up so bad

03/12/2021 1:13 AM

You failed me as an adult man

This is fucking me up so bad

You just took advantage of me when i was in such a bad spot

I just- please dont ever do this again, to anyone let alone me

17 and 28 is such a big gap and im still a kid, do you realize how it warps your mind when this stuff happens

MrZeraTheMant 03/12/2021 1:17 AM

I get what you're saying. No more of that, then.

03/12/2021 1:19 AM

Once again, nothing but love for you bud but just please make better choices

I dont want to see you in trouble for something like this

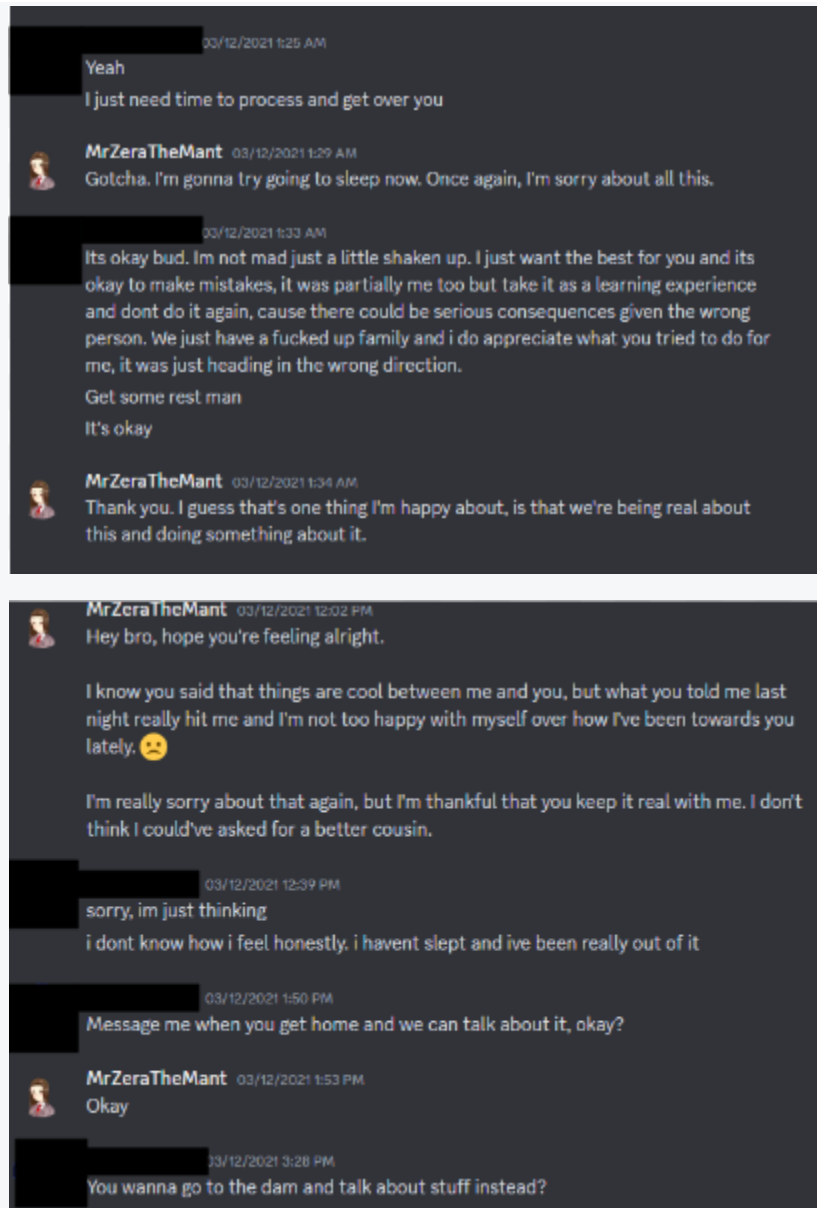

MrZeraTheMant 03/12/2021 1:21 AM

I don't either. I'm really sorry I let that side of myself take over when I was around you; I really should know better.

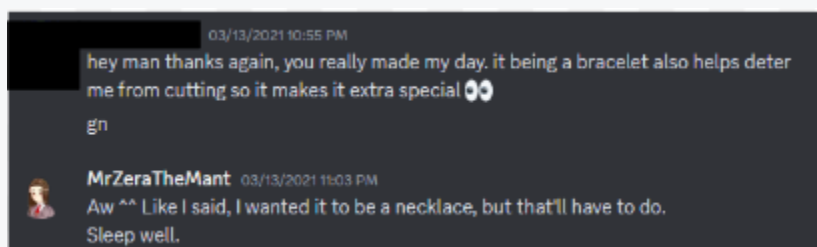

We're still cool, though?

03/12/2021 1:25 AM

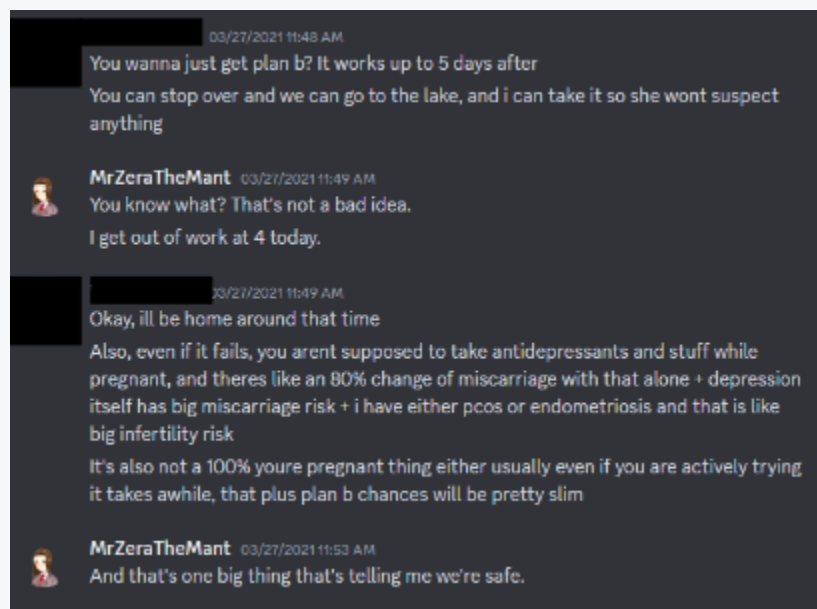

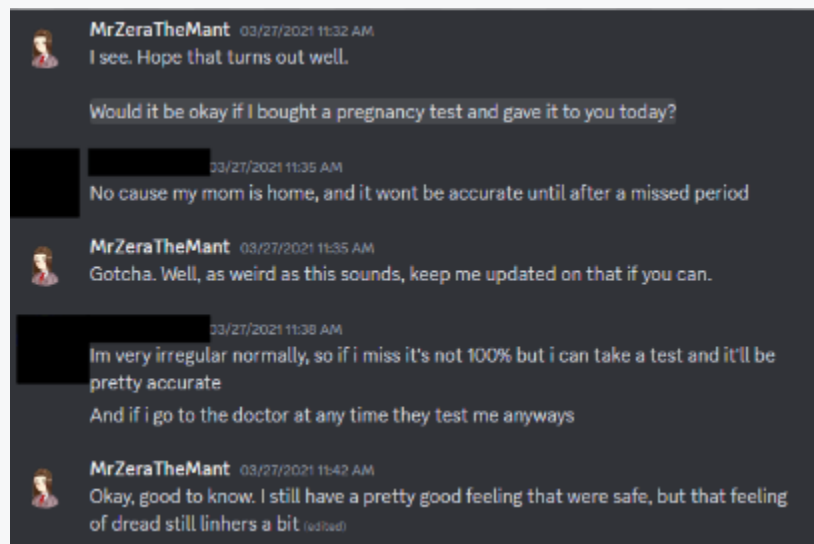

Yeah

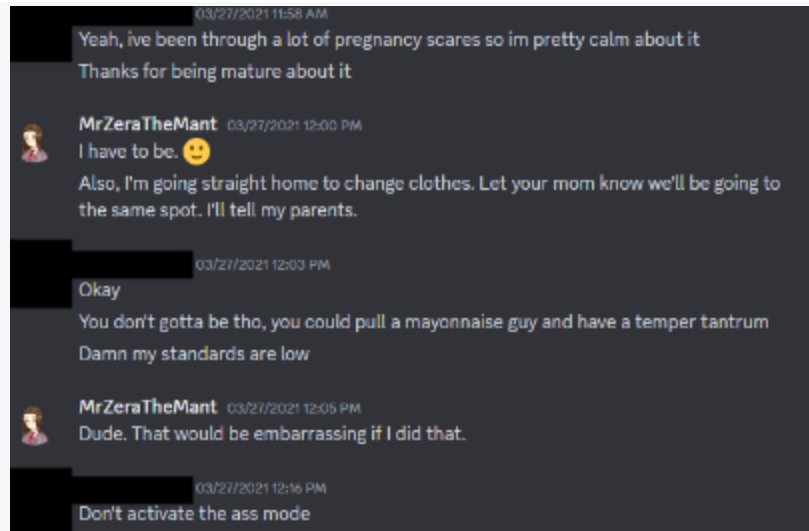

We meet up and talk. This results in him hugging me and crying, begging me not to “expose” him for grooming, saying that he saw someone else in the ddlc community get excommunicated for grooming and doesn’t want that to happen to him. He manipulated me into staying quiet and thinking he wasn’t grooming me.

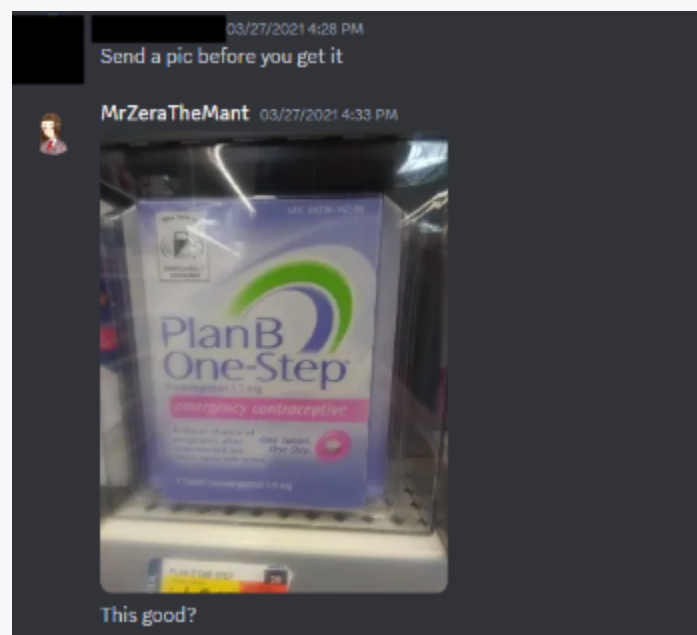

Another sexual encounter happens. Unprotected and didn’t tell me.

“Mayonnaise guy” referring to one of my past groomers. He constantly one upped them like he wasn’t doing the exact same thing to me.

03/27/2021 8:44 PM
Yeah i was reading something that said you needed to take a second pill 12 hours after, but i got the one step one so it's just one pill
Also hey, im sorry for you having to go out and buy it and all, i feel really bad and i dont want to ruin things with you and stephanie
That's been kinda keeping me down, and ive been kinda numbing myself out so it doesnt hurt as bad

 **MrZeraTheMant** 03/27/2021 9:04 PM
You're not ruining anything between me and Stephanie, I promise. She doesn't know about us. Also, I had the money for it, so no need to worry.

03/27/2021 9:15 PM
Okay
Sorry, i may just be getting too far into my own head. I cant handle another major event happening so im kinda numbing myself out and getting distant

03/28/2021 2:06 PM
youre not like, just using me for sex right?

 **MrZeraTheMant** 03/28/2021 2:10 PM
No, that'd be mean of me. I'm here to try to help you get through this little part of life until life starts getting better. Even then, I'll still be around.
Why else would I have bought you that bracelet?
And I don't call myself a proud Ally for no reason.

April 2021

He begins seeing someone on Tinder and pushes me to the side. Said person turned 18 a month prior.

04/03/2021 10:46 PM
Yo plan b worked
That also explains the depression lately

 **MrZeraTheMant** 04/03/2021 10:54 PM
Oh snap. How'd you know it works?

04/03/2021 10:55 PM
I started, plus pretty bad cramping

04/05/2021 9:53 PM
Yo I think I need some time to distance myself from you

 **MrZeraTheMant** 04/05/2021 9:54 PM
Oh?

04/05/2021 9:58 PM
I'm too attached to you basically and keep getting really hurt

 **MrZeraTheMant** 04/05/2021 9:58 PM
Oh 😞
I'm sorry to hear.
Well, if you need your time away, and if this means we don't get to hang out this Thursday, then I understand.

04/05/2021 10:02 PM
Yeah, it's probably not a good idea

 **MrZeraTheMant** 04/05/2021 10:02 PM
I gotcha, but pls stay safe,

04/05/2021 10:03 PM
I don't know how you do it but I can't just get rid of feelings so easy, if you know what I mean
It's been bothering me pretty bad

04/05/2021 10:19 PM
I also wanna say that you didn't do anything wrong and I'm not mad or upset with you
Attachment is a hard thing for me and I don't form them right

 **MrZeraTheMant** 04/05/2021 10:24 PM
Okay, thanks for telling me. I wasn't worried about doing anything wrong, but it's still nice to hear that.

04/05/2021 10:47 PM
Also, I don't wanna do anything anymore unless you're serious about it

 **MrZeraTheMant** 04/09/2021 10:42 PM
Fair. My mom and dad were a little skeptical about [redacted] being 18, but they're fine with it.

[redacted] 04/09/2021 10:43 PM
Oh woah you didn't tell me about that lol
18 isn't a child so 🙄

 **MrZeraTheMant** 04/09/2021 10:44 PM
Exactly.
She turned 18 a month ago, so...

[redacted] 04/09/2021 10:46 PM
I mean, I'm 17 so
Level up LMAO

 **MrZeraTheMant** 04/09/2021 10:46 PM

May 2021

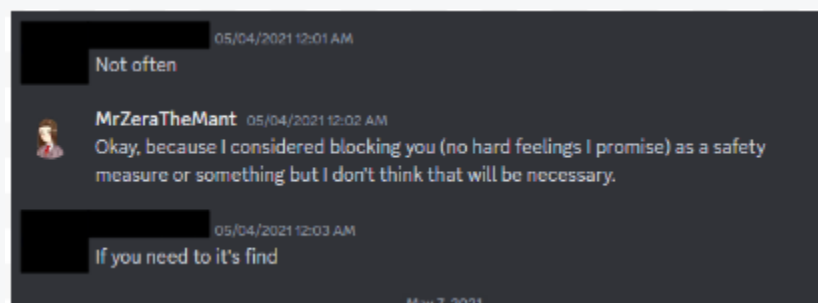

I tell my mom what was happening.

I lie and blame it on her being mad that he supports me being trans at first (it is cropped out for privacy reasons).

I lie here because i was afraid of his reaction if he knew I told her myself.

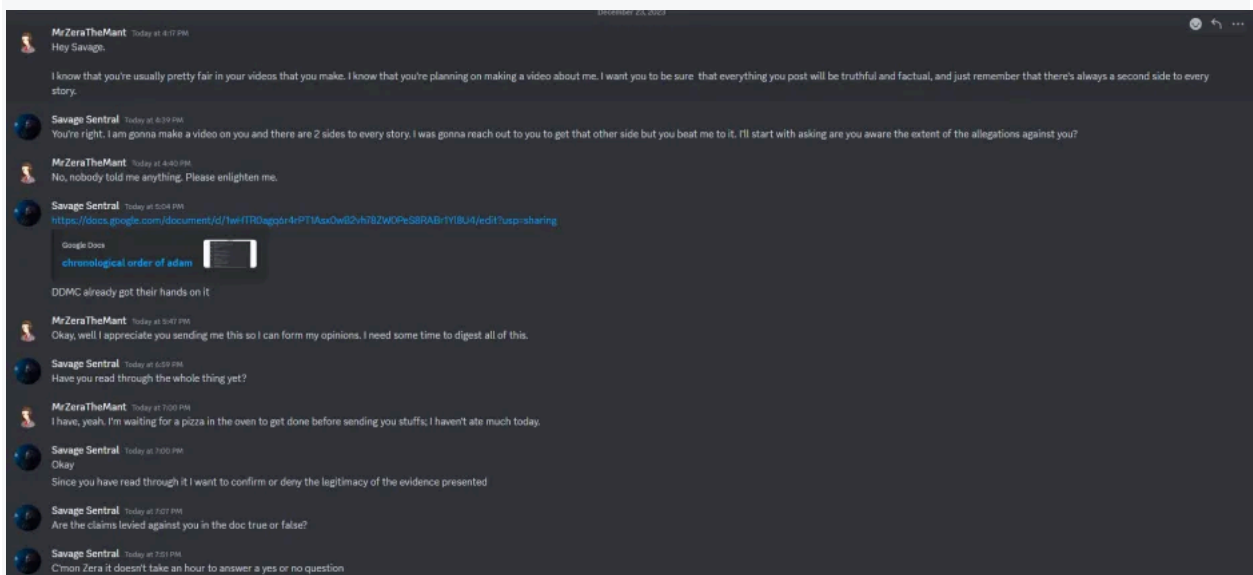

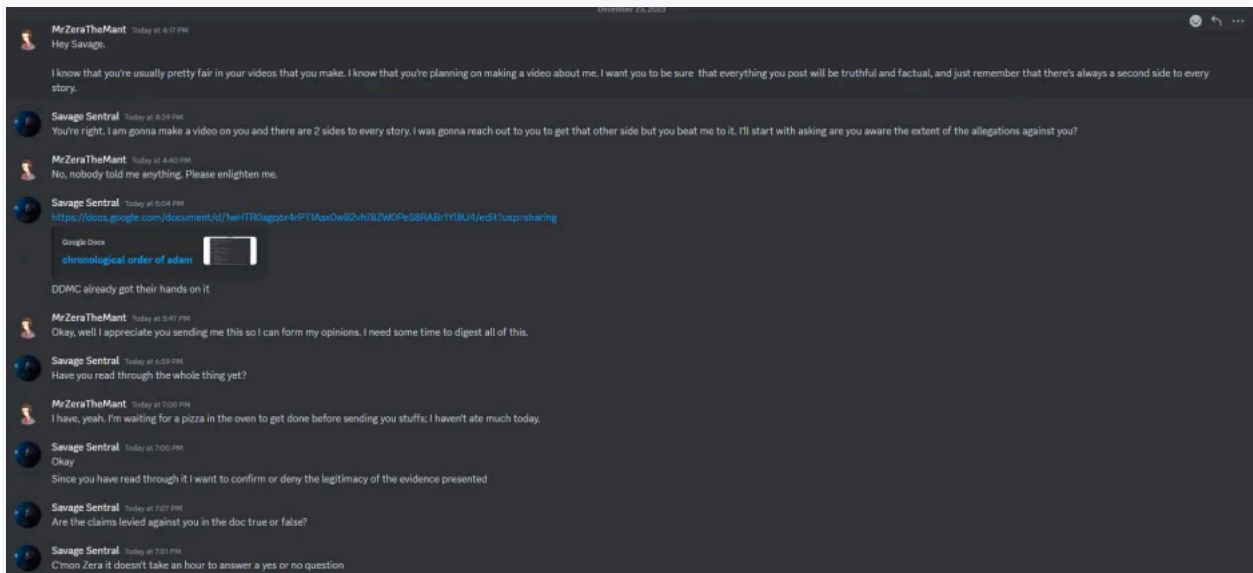

Conversation continues until June. He is overly paranoid of my mom from this point but it's not important. I cut

him off and block on everything on 6/3/21.

His Response

Note: I no longer support savage sentral. These screenshots were taken before him and his server began harassing me.

He is aware I do not use she/her.
