

“Around The World” playlist

Thanks to all the people who submitted songs, I appreciate your effort !

Disclaimer: Not all countries are included in the list, for multiple reasons, some of which are:

– I probably didn't reach your country yet - check back later to see your country hopefully get added

– Your country has too small of a subreddit - too few members means little back and forth discussions and the songs added will be a lot more biased towards the few commenters' own tastes

– Your country's subreddit's mods had a problem with my post - such countries are:

- the Dominican Republic (I've been permanently banned in r/Dominican for spam because of my post);
- Greece (the mods don't allow for polls, and despite the fact that I explained my post isn't a poll, they still pushed back);
- Austria (my post was removed for "self-promotion", and I still haven't received a response from the mod team after contacting them);
- Australia (I've asked the mods for permission to post preventively, and they didn't allow me to proceed)
- Italy (I asked for permission before posting, got ignored, then decided to post anyways and got removed)
- Germany (I was banned from r/Germany under the pretext of self-promotion)

– The post in your country's subreddit gained too little responses. Such countries are the UAE, Jordan, Somalia, Yemen, Nepal, Iraq, Myanmar and Afghanistan.
