

Baked Huevos Rancheros

from [Created by Diane](#)

Eggs

Corn tortillas

Heat tortillas in microwave for 10 seconds to soften them so they are pliable to be able to fit into cupcake pan.

Spray the cupcake pan so that it is lightly oiled.

Place one 4 inch tortilla into each well of the cupcake pan.

Crack one egg and place it into each well of the cupcake pan.

Bake for 10-12 minutes until desired firmness.

Carefully remove tortilla with egg from pan and serve with chopped scallions.

I like that it's easy to bake a dozen eggs at a time, or just a few if that is all that is needed.
