NOTIFICATION OF STUDENT RECORDS ACCESS

Student records containing personally identifiable information shall be kept confidential at collection, storage, disclosure and destruction stages. Student records shall be maintained by the secretary and housed in the administration office.

Parents and eligible students shall have access to the student's records during the regular business hours of the school district. An eligible student is a student who has reached eighteen years of age or is attending an institution of post-secondary education. Parents of an eligible student shall be provided access to the student records only with the written permission of the eligible student unless the eligible student is defined as a dependent by the Internal Revenue Code. In that case, the parents may be provided access without the written permission of the student. A representative of the parents or eligible student, who has received written permission from the parents or eligible student, may inspect and review a special education student's student records. Parents, other than parents of an eligible student, may be denied access to a student's records if the school district has a court order stating such or when the district has been advised under the appropriate laws that the parents may not access the student records.

A student record may contain information on more than one student. Parents shall have the right to access the information relating to their student or to be informed of the information. Eligible students shall also have the right to access the information relating to themselves or be informed of the information.

Parents and eligible students shall have a right to access the student's records upon request without unnecessary delay and in no instance more than forty-five days after the request is made. Parents, an eligible student or an authorized representative of the parents shall have the right to access the student's records prior to an Individualized Education Program (IEP) meeting or hearing.

Copies of student records will be provided if failure to do so would effectively prevent the parents or student from exercising the right to access the student records. Fees for copies of the records shall be waived if it would prevent the parents or student from accessing the records. A fee may not be charged to search or retrieve information from student records.

Upon the request of parents or an eligible student, the school district shall provide an explanation and interpretation of the student records and a list of the types and locations of education records collected, maintained or used by the school district.

If the parents or an eligible student believes the information in the student records is inaccurate, misleading or violates the privacy or other rights of the student, the parents or an eligible student may request that the school district amend the student records. The school district will decide whether to amend the student records within a reasonable time after receipt of the request. If the school district determines an amendment shall be made to the student record, the school district shall make the amendment and inform the parents or the eligible student of the decision in writing.

If the school district determines that amendment of the student's record is not appropriate, it shall inform the parents or the eligible student of their right to a hearing before the hearing officer provided by the school district. If the parents' and the eligible student's request to amend the student record is further denied following the hearing, the parents or the eligible student shall be informed that they have a right to place an explanatory letter in the student record commenting on the school district's decision and setting forth the reasoning for disagreeing with the school district. Additions to the student's records shall become a part of the student record and be maintained like other student records. If the school district discloses the student records, the explanation by the parents shall also be disclosed.

Student records may be disclosed in limited circumstances without parental or eligible student's written permission. This disclosure is made on the condition that the student record will not be disclosed to a third party without the written permission of the parents or the eligible student. This disclosure may be made to the following individuals or under the following circumstances:

- to school officials within the school district and AEA special education personnel whom the superintendent has determined have a legitimate educational interest;
- to officials of another school district in which the student wishes to enroll, provided the other school district notifies the parents the student records are being sent and the parents have an opportunity to receive a copy of the records and challenge the contents of the records;
- to the U.S. Comptroller General, the U.S. Secretary of Education or state and local educational authorities;
- in connection with financial aid for which the student has applied or which the student has received if the information is necessary to receive the financial aid;
- to organizations conducting educational studies and the study does not release personally identifiable information;
- to accrediting organizations;
- to parents of a dependent student as defined in the Internal Revenue Code;
- to comply with a court order or judicially issued subpoena;
- in connection with a health or safety emergency; or,
- as directory information.

The superintendent shall keep a list of the individuals and their positions who are authorized to view a special education student's records without the permission of the parents or the eligible student. Individuals not listed are not allowed access without parental or an eligible student's written permission. This list must be current and available for public inspection and updated as changes occur.

The superintendent shall also keep a list of individuals, agencies and organizations which have requested or obtained access to a student's records, the date access was given and their legitimate educational interest or purpose for which they were authorized to view the records. This list for a student record may be accessed by the parents, the eligible student and the custodian of student records.

Permanent student records, including a student's name, address, phone number, grades, attendance record, classes attended, grade level completed and year completed may be maintained without time limitation. Permanent student records will be kept in a fire-safe vault.

When personally identifiable information, other than permanent student records, no longer needs to be maintained by the school district to provide educational services to a special education student, the parents or eligible student shall be notified. If the parents or eligible student request that the special education records be destroyed, the school district will destroy the records. Prior to the destruction of the records, the school district must inform the parents or eligible student of the reasons for which they may want the records maintained. In the absence of parents or an eligible student's request to destroy the records, the school district must maintain the records for at least five years.

The school district will provide training or instruction to employees about parents' and eligible students' rights under this policy. Employees shall also be informed about the procedures for carrying out this policy.

It shall be the responsibility of the superintendent to annually notify parents and eligible students of their right to inspect and review the student's records. The notice shall be given in a parents' or eligible student's native language.

ASBESTOS NOTIFICATION

Notification to Parents, Students, Teachers, and Employees

Attention: Parent, Student, Legal Guardian, Employee

Asbestos has been an issue of concern for many years. The Asbestos Hazard Emergency Response Act of 1986 (AHERA) was designed to determine the extent of asbestos concerns in the schools and to act as a guide in formulating asbestos management policies for the schools.

Asbestos has been used as a building material for many years. It is a naturally occurring mineral that is mined primarily in Canada, South Africa, and the U.S.S.R. The properties of asbestos make it an ideal material for insulating, sound absorption, decorative plasters, fireproofing, and a variety of miscellaneous uses. There have been over 3000 different products manufactured using asbestos. The Environmental Protection Agency (EPA) began action to limit its uses in 1973. Most of the asbestos products used as building materials were banned by 1978.

We have had our facilities inspected by a certified asbestos inspector as required by AHERA. The inspector located, sampled, and determined the condition and hazard potential of all material in our buildings suspected of containing asbestos. The inspection and laboratory analysis records form the basis of the district's asbestos management plan.

A certified Management planner has developed an asbestos management plan for our buildings which includes: notification letters, training for our employees, a set of procedures designed to minimize the disturbance of asbestos containing materials, and plans for regular surveillance of the materials.

All friable asbestos was removed from the school in 1989. Only non-friable asbestos, such as floor tile remains and is patched when needed. Six month periodic surveillance will continue as required by the management plan. No removal projects are planned at this time.

Our 3 year re-inspection was performed on May 16, 2025, by a certified asbestos inspector employed by Eocene Environmental Group. Our management plan requires a 3 year inspection and will be completed again in May, 2028.

A copy of the management plan is available for your inspection in the superintendent's office. Please make an appointment during office hours if you wish to review the plan.

Todd Foelske is our asbestos plan manager and all inquiries regarding the plan should be directed to him. Contact Todd at the school (987-2581) between 6:30AM – 3:00PM.
