

CECI Awards Nomination Form Women in Action Award

Context

CECI is calling for nominations for the Woman in Action award, which recognizes an individual's contribution to the advancement of equality. The award will be presented at the Annual General Meeting (AGM) on October 12, 2023. CECI is firmly committed to women's rights and places the principle of equity in human relations at the heart of its vision and actions. CECI believes in equal rights and dignity for all and works to establish equality between women and men in society and within its own organization. CECI is convinced that women must have equitable access to the benefits of development, and therefore be involved in the decision-making process regarding development actions and projects. The discrimination they face limits their access to education, health, and decision-making power, among other things. It is to remedy this situation that CECI aims to bring about this social transformation.

The Women in Action Award recognizes any person who has made a significant contribution to equality between women and men.
