

## Math 6 Chapter 9 Menu: Statistics

### 1. What do I need to know?

|                                                                   |                                           |                                                                                      |                                                                      |                                                          |
|-------------------------------------------------------------------|-------------------------------------------|--------------------------------------------------------------------------------------|----------------------------------------------------------------------|----------------------------------------------------------|
| 9.1 Identify statistical questions and display data in dot plots. | 9.2 Calculate the mean of a data set.     | 9.3 Calculate median and mode for a data set and decide what is most representative. | 9.4 Use measures of variation such as range and interquartile range. | 9.5 Calculate the mean absolute deviation of a data set. |
| Already know it?<br>Teacher initials_____                         | Already know it?<br>Teacher initials_____ | Already know it?<br>Teacher initials_____                                            | Already know it?<br>Teacher initials_____                            | Already know it?<br>Teacher initials_____                |

### 2. How will I learn it? (Select 1 to 2 per target)

|                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                              |
