

I was fortunate to have taken numerous national and international trips with my high school choir program that John Sabol successfully planned for us. Some of my fondest memories as a teacher were providing students an opportunity to travel. The international tours John helped plan were particularly wonderful and packed full of awesome destinations with excellent performance venues. His pre-trip information was thorough and prepared us for a great experience. His onsite help with transportation, housing, meals for exceptionally large groups, and entry to attractions made travel low-stress and maximum enjoyment.
