

Prompt:

TBA

Presentation

(0-10pts):

- Is your presentation visually appealing?
- Do all pictures, graphics, and content have a purpose?
 - NOTE: Humor in your presentation is acceptable (maybe encouraged for entertainment purposes), as long as it pertains to your overall presentation and is still professional and engaging.
- Were your main points presented clearly, both in the presentation and verbally?
- Does your presentation look complete and/or prepared?

Functionality(0-20pts):

- How interactive is your project? (how well does it fit with the prompt)
- Can anyone use your project? If not, make sure to address its limitations and your future plans for your proposed project.
- Who is your project aimed at? How is your project helping them or providing them with a service?

Creativity & Originality (0-10pts):

- NOTE: AI is acceptable for gathering ideas and knowledge that might help you create your own project. AI is NOT acceptable for providing you the code for the majority of your project (i.e. don't just copy + paste AI-generated code). We want to see what YOU can do and what YOU have learned!
- Has your project been done before? If so, what makes yours different and unique?
- Is your project visually appealing?

Completeness (0-10pts):

- NOTE: While we encourage everyone to create a [Minimum Viable Product \(MVP\)](#), we understand that not everyone might get there. Just make sure to show/explain what you *have* done and what you *wanted* to do if you had more time & resources.
- Does your project serve its intended purpose?
- Is your project's design and development process documented?

Applicability + Impact (0-10pts):

- Does your project address or work off of the prompt(s)?
- How would your project stand the test of time? How/why is it relevant now?
- How would your project affect people, groups, or communities?
- How does your project bring positive change to people?
- Does your project inspire others? Motivate others? Entertain others?
