

The person I am reaching out to is selling online guitar courses.

SL: Increase course selling

Hey Thaddeus,

I recently came across your website with Online Guitar Courses. and was impressed.

You are probably doing a fine job with selling your courses which is great.

But I think some areas could be significantly improved, which would boost your business even more.

Let me know if you would like to know more about what I could do for you and how it would improve your course-selling business so much.

Best regards,

Nebojsa
