

Video Chat Link <https://meet.jit.si/cwl> Chrome/Chromium/Firefox Quantum (61+) is highly recommended (Safaris reported to be audio only)

Please **help edit** these minutes during/after the call. You can add [notes](#) at the end.

In attendance: (please **add yourself**)

- Michael R. Crusoe (CWL project)
- Peter Amstutz
- Bogdan & Djordje
- Andrey Kartashov
- Hervé Ménager
- Jason Travis
- Michael Miller

Date: [2018-08-21 14:30 UTC](#)

Previous meeting minutes:

Next regular CWL meeting: [Tuesday, 2018-09-04 14:30 UTC](#)

Existing agenda (please add items to the end):

- [Metadata considerations](#) by Kaushik Ghose
 - GitHub [Issue #710](#)
 - CWL v1.1 PR <https://github.com/common-workflow-language/cwl-v1.1/pull/15>
 - Covers manual metadata propagation, but not automatic metadata movement
 - Open questions: is this a core or an optional for v1.1?
 - & accompanying cwltool sample implementation:
<https://github.com/common-workflow-language/cwltool/pull/876>
- CWL 1.1.0 status
 - Draft dev1 at <http://www.commonwl.org/v1.1.0-dev1/>
 - new repo is <https://github.com/common-workflow-language/cwl-v1.1>
 - Open issues:
<https://github.com/common-workflow-language/common-workflow-language/issues?q=is%3Aopen+is%3Aissue+milestone%3Av1.1>
- Allowed values / validation proposal; comments are appreciate. Will be going to GitHub for further feedback soon.

<https://docs.google.com/document/d/1-F8CtU7Em0hwnhVjlsdHtVGqpzhKm3dpuXOCpKy9SRQ/edit?usp=sharing>

- Type restrictions, regular expressions, ranges on integers
- Aimed at 2.0 schema salad specs
- Moved into a GitHub issue:
- Conditionals proposal will be addressed in 2.0; but **work needs to start now**
<https://github.com/common-workflow-language/common-workflow-language/issues/494>
 - Also need to move into spec pull request?
 - Need to be tested out in some code, say in reference runner
 - Use cases collected:
<https://github.com/common-workflow-language/common-workflow-language/issues/725> - then need to 'draft out' what they look like in proposed CWL syntax
- CWL BMC Bioinformatics paper update
 - <https://docs.google.com/document/d/1Ik6ZBqVhDZeQKeGQ3RGzHETn3mySCcq1SQC06bTG0Gs/edit?usp=sharing>
 - Structure is kind-of-there, good collection of workflows using CWL; now needs more meat (bullet point-to-text conversion).
 - **Co-authorship still available!** Feel free to contribute - then add your name to author list.
-
- *Add your item here*

Collaborative Notes:

(please help add things below!)

Reminder, CWL plugin for Microsoft Visual Studio Code editor:

<https://github.com/manabuishii/vscode-cwl>

Discussion about Bogdan's pull requests:

<https://github.com/common-workflow-language/cwltool/pull/879>

Is referencing an workflow level input from `WorkflowOutputParameter.outputSource` valid? If not, it should be so for v1.1

<https://github.com/common-workflow-language/common-workflow-language/issues/763>
