# I CAN

## GO TO COLLEGE WHILE I'M IN HIGH SCHOOL.

**Save money and earn your college degree faster.  
With dual enrollment courses, you can earn college  
credit while pursuing your high school diploma.**

### DUAL ENROLLMENT

Dual enrollment programs in California let high school students take community college courses. This means you can earn both high school and college credits at the same time through the same class. It's a great way to get a head start on your college education, explore different subjects, and graduate high school with up to a year or more of college credits already under your belt. And the good news is tuition is typically free for high school students.

Check with your high school counselor or contact your local California community college for more information and assistance with the application process. Get started today [ICanGoToCollege.com](https://www.icango.college.com)
