

X-Wing Alliance Wave 0 Tournament Kit

The X-Wing Alliance (XWA) is excited to bring you our first Organised Play tournament kit!

These kits are perfect for Tournament Organizers to provide prizes to players at local, store level tournaments over the coming months.

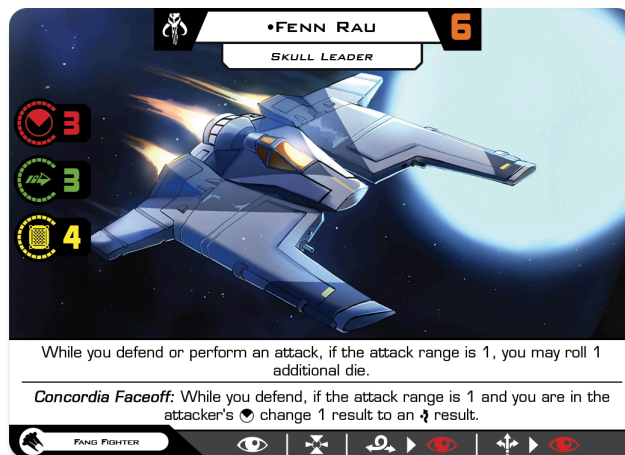

The theme of these wave packs will focus on the ace pilots from the game. They will contain an initiative 6 pilot and associated upgrades from the featured factions.

We begin with the Rebel Alliance and Wedge Antilles in the T-65 X-Wing. His high initiative and ability to reduce his targeted opponent's agility makes him a real menace. His matching upgrade leans into that by hurting the defender's green dice even more – Crack Shot!

For the Empire we have the Dark Lord himself – Darth Vader in the TIE Advanced x1. With 3 Force charges and ability to take multiple actions he’s a force to be reckoned with, especially when equipping his matching upgrade – Hate – allowing him to regenerate the Force more quickly.

Representing the Scum faction, we have the ultimate puncher, Fenn Rau. In his Fang Fighter he’s looking to roll up into someone’s face and roll five dice attacks. What else would you upgrade him with? Fearless to turn a result to a hit!

The chosen one himself - Anakin Skywalker - is flying the Delta 7B variant of the Aethersprite and is fittingly matched with Malice, allowing him to turn an eyeball or hit result to a crit and maybe even regenerate the force back!

For the Separatists, Jango Fett is featured, flying his iconic Firespray class patrol craft. As is a fitting example for a simple man making his way through the galaxy, he’s sporting Lone Wolf to help him take on anyone getting in his way.

Moving to the sequel era we have the Trigger Happy Fly Boy - Poe Dameron! As well as being able to take two actions a turn he’ll be able to equip - what else - Heroic!

Lastly we have the First Order and the ominous Major Vonreg in the TIE/ba interceptor. Armed with the ability to, like his Resistance counterpart, take multiple actions a turn he can also make use of Fanatical when unshielded to make his attacks even more deadly!

The way this first pack provides pilot and upgrade cards for all 7 factions for 12 players, meaning everyone comes away with at least 14 cards. There is also a rainbow foil version of each pilot for the TO to distribute as they see fit to reward top players, friendly attitude or someone having a bad dice day!

Each pack will also contain a full set of non-foil cards for the unsung heroes of our communities – the tournament organiser!

We are also including a set of XWA card objective markers. There are enough for 5 markers for each player plus the TO and if you already have nice, flat objectives then why not take some to give away to people who don't!

If you would like to order a kit then please click on the order form link below and follow the instructions. If you would like multiple kits (for example to cover multiple tournaments or a tournament larger than 12 players) then you can specify this in the order form.

The cost is \$50 / €47 / £39 per 12 player kit plus shipping.

This puts the base cost per player (before shipping) at \$4.17 / €3.92 / £3.25.

This run of kits is being shipped from Hong Kong. Please check the order form below for shipping costs to your location. If your location is not listed please request a shipping quote when completing the order form.

IMPORTANT - It is important to us that these tournament kits are available to as many people as possible. Balancing this with spending funds that we haven't yet taken has meant borrowing a significant amount of money from volunteers to place this first order..

As such we will have a VERY limited initial run (60 kits) which will be available to ship by mid November. These will be allocated on a first come, first served basis by people who have filled out the form AND paid. The rest will be effectively treated as pre-orders and will incur at least 2-3 weeks (likely longer over Christmas/New Year) lead time before being available for shipping.

UPDATE - The initial run of 60 kits has now been exceeded. This means that all future orders will need to be paid up front and we will order from our supplier and fulfil when received.

FURTHER UPDATE - Some kits are now in the hands of TO's (which is very exciting!) as orders continue to be made, processed and shipped. We have unfortunately experienced a production issue with the objective markers which will cause a delay in shipping. As such we are offering the option to ship without them and, if needed, can provide them at a later date once available. This will be detailed by email once the form below has been completed.

We ask that you please bear with us as we do our best to work out the logistics needed to get these kits into the hands of TO's all over the world.

Please note the X-Wing Alliance is not a profit-making organisation but a community group run solely on a volunteer basis. The cost of the kits takes into account art, production and shipping costs and no profit is made on the items being sold.

Once we have received your completed form we will get in touch to confirm shipping details and arrange invoicing and payment. Please bear in mind that we will not be in a position to confirm shipping costs until at least the 6th of November so please be patient, we will get back to you as soon as we're able.

XWA Wave 0 Tournament Kit Order Form -

SHIPPING UPDATE

We now have shipping costs for up to 4 kits as follows (with countries that kits have been requested from to date)

Zone 1 - USA, UK, Ireland, Canada, Australia, France, Spain, Germany, Italy, Netherlands, Austria

Zone 2 - Hungary, Finland, Poland, Brazil, Chile

Zone 1			Zone 2		
Number of kits	Price £ (GBP)	Price \$ (USD)	Number of kits	Price £ (GBP)	Price \$ (USD)
1	11	14	1	11	14
2	19	25	2	20	25
3	27	36	3	28	37
4	36	48	4	37	49

PLEASE NOTE - Anything OVER 4 kits is above the weight limit for airmail and would then use an alternative which could take up to 2-3 months. Therefore our current proposal is that for over 4 kits we find the best combination (e.g. for 5 kits to USA the best combo is 3+2 (\$25+\$26=\$61) rather than 4+1 (\$48+\$14=\$62). We know there isn't much in it but we will do our best where we can!

FAQ

Can I have a discount for bulk order?

The short answer is, unfortunately, not really, no. As a non-profit organisation we are selling the kits for the basic cost price already. It's important to us that the kits are as inexpensive as possible to provide TO's the best value when organising tournaments. This does lead us on to the next question...

Can I combine shipping?

Yes! As a small volunteer run outfit we are not geared up for large scale logistics so shipping will also be at cost. However due to size and weight bands we can ship multiple packs for the same shipping cost. For example, shipping one pack to the US will cost \$12 meaning that the total pack price is \$64 (\$5.33 per player cost). Order 3 packs and the total cost is \$186 (3 x \$50 plus \$46 shipping) and the per player cost is now \$5.16.

For future packs we are looking into whether we can provide better value by utilising regional hubs for re-distribution. Watch this space for further info.
