NYU Law Review AI Disclosure Template Form

Scholars seeking to submit a piece to the *N.Y.U. Law Review* must disclose use of artificial intelligence (AI) as part of their submission to NYU Law Review. For more information, please refer to the NYU Law Review's policy on AI. This disclosure template assumes you've read the policy and understand the basic terms it uses to describe AI use (AI, "submitted materials," intentional AI use v. unintentional use, etc.). ***You should spend no more than 10 minutes filling this out***.

We expect scholars to be rigorous in their approach to disclosure, but as the policy notes, scholars need not disclose *every* use of AI. As we note in the policy, one way of thinking about disclosure is: "[S]cholars often credit other scholars or research assistants for substantive or technical contributions to submitted materials. If a scholar has used an AI tool to a similar effect, we expect the scholar to describe that use in the Disclosure Addendum."

If you would prefer to submit a Google Form disclosure instead of completing this form, please feel free to fill out our form, linked here.

If you have any questions, please feel free to contact our Editor-in-Chief Ajay Singh at as11021@nyu.edu. Thank you for taking the time to do this!

Name:

Email:

Submission title:

Did you use AI <u>at any point</u> during the development of your submitted materials?

- ☐ Yes
- ☐ No[1]

Did you use AI in the <u>writing or editing</u> process of your submitted materials?

- ☐ Yes
- ☐ No

  If so, disclose here any substantive use of artificial intelligence in your **writing or editing** process. This may include AI use in drafting or revising body text, footnote text, or explanatory parentheticals within citational content.

[1] If you select No here, you may submit the rest of the form as blank.

Did you use AI in the research process of your submitted materials?

- ☐ Yes
- ☐ No

If so, please briefly disclose and describe here any substantive use of AI for **research**. This may include AI use in topic development and preemption checks, summarizing cases (i.e. literature reviews) and gathering sources, generating arguments and counterarguments, or outlining and structuring other sources.

Did you use AI in data analysis within your submitted materials?

- ☐ Yes
- ☐ No

If so, please briefly disclose and describe here any substantive use of artificial intelligence in your **data analysis**. This may include AI use in data collection and compilation, coding and categorization, quantitative or statistical analysis, or interpreting and summarizing results.

Did you use AI in any other way to develop your submitted materials?

- ☐ Yes
- ☐ No

If so, please briefly disclose and describe here **any other way(s)** in which you used AI in the process of developing materials you submitted for consideration by N.Y.U. Law Review.

This is not required, nor will the *N.Y.U. Law Review* use this portion of the disclosure in evaluating your application. But if you would like, please share with us how you approached AI use in your submitted materials and how you think about AI use in producing scholarship. We are just interested to see how different scholars are engaging with or thinking about AI use in the context of their research!
