## Abstract (made in English)

Abstract using English, which contains, research objectives, design/methodology/approach, results, findings, and limitations/implications of the research. Abstract may consist of 150-200 words. **(11 pt, Calisto MT, justify)**

Example:

**Purpose** – research objectives

**Design/Methodology/Approach** – design/methodology/approach

**Results** – results

**Research limitations/Implications** – findings, and limitations/implications of the research

**Keywords:** two to five keywords (11 pt, Calisto MT, Justify)

**Introduction** (12 pt, Calisto MT)

The introduction contains the background of the research, the development of previous research to compare with the current research so that the *gap (gap analysis)* between the theory or the results of previous research with the current or expected situation appears, clearly formulate the research problem / research question to be resolved accompanied by a statement of research objectives. (11 pt, Calisto MT, Justify)

This section contains at least the research instrument, population, sample, sampling method, respondent characteristics, research location, test procedures, and test equipment. Make it in paragraphs do not need numbering. (11 pt, Calisto MT, Justify)

**Theoretical Framework and Hypothesis** (12 pt, Calisto MT, Justify)

**Literature Review**

This section contains previous findings related to the research topic. Research hypotheses are included in this section where appropriate. (11 pt, Calisto MT, Justify)

**Research Methods** (12 pt, Calisto MT, Justify)

**Research Results and Discussion** (12 pt, Calisto MT, Justify)

This section explains the results of the research analysis, and the acceptance or rejection of the hypothesis. This section also features a discussion of the research results. (11 pt, Calisto MT, Justify)

**Conclusions and Suggestions** (12 pt, Calisto MT, Justify)

**Conclusion**

The conclusion summarizes the important results and their implications. The conclusion is

not a summary of the research results but an emphasis on important findings. Align with the statement of research objectives, no need for a number system, pay attention to the limitations of the study. **11 pt, Calisto MT, Justify**

### **Suggestion**

Implications and suggestions must be related to the results of research that has been carried out by the author, do not make up suggestions. **11 pt, Calisto MT, Justify**

- ❖ Citations and bibliographies are "required" to use Reference Manager applications such as Mendeley/Zotero/Endnote.

### **References**

**(12 pt, Calisto MT, Justify)**

This section contains all references used by the author as references, meaning that these have been read and included as excerpts in the text. The bibliography should contain at least 20 references and at least 80% should be journals. And published in the last 10 years (except *Grand Theory*). In this research:

- ❖ Bibliography is sorted alphabetically
- ❖ The writing of the bibliography follows the *American Psychology Association (APA 7)* format.
