EXPERIENCE

Frontend Engineer, *Foothill Technology Solutions, LLC.*

NOVEMBER 2022 - PRESENT

Frontend Intern, *Foothill Technology Solutions, LLC.*

JUNE 2022 - OCTOBER 2022 [Certificate](#)

PROJECTS

POS Site – *TypeScript React & Firebase*

The Product Management POS Application is a tool that streamlines the process of managing inventory and sales for businesses. With its simple interface, the app is easy to use and helps businesses keep track of products and sales. [Open source](#), [Live](#)

Task Management System – *React & Firebase*

web-based application that controls the life cycle of all tasks in your project. This will allow you to devote more time to job completion and less time to task management. [Open source](#), [Live](#)

- Provided Firebase database to store task and comment data.

Quote Maker – *React & Firebase*

Quick and simple web tool for publishing quotations and receiving feedback from others. [Open source](#), [Live](#)

- Users may contribute quotes and comment on them in the SPA React app.
- The React router was used for user redirections and routing.

FoodExpress – *HTML & CSS*

An online food delivery and reservation system allows consumers to get their meals delivered to their homes or at a restaurant if they make a reservation. [Open source](#), [Live](#)
