<https://orcid.org/orcid-search/search?searchQuery=0000-0002-5131-761X>

Consultations: according to the consultation schedule.

**Completed a foreign internship on the subject \*:**

- 1) «Features of the functioning of startup centers», Belarusian State University (Minsk, Belarus);
- 2) “Leadership and team building”, Royal Institute of Technology (Stockholm, Sweden).

\* internship materials were used in compiling the content of the discipline

### General information about the discipline

|               |  |
|---------------|--|
| Course goal   | Formation of system knowledge and understanding of the conceptual foundations of leadership; mastering specific techniques and tools for managing individual behavior in the organization.   |
| Course format | The course involves lectures, practical work and consultations for a better understanding of the material and is accompanied by an electronic training course of the A-Tutor system, has a structure, content, tasks and an evaluation system. |

|  |  |
|--|--|
| <b>Graduates' competencies according to the EP</b>   | <b>IC.</b> Ability in solving complex tasks and problems characterized by complex and uncertain conditions and requirements in the field of management or in the study process involving some research and/or innovations carrying out. <b>GC2.</b> Be able to communicate with representatives of other professional groups (experts from other branches of knowledge/types of economic activity). <b>GC4.</b> Be able to motivate people and achieve common goals. <b>GC5.</b> Be able to act on the basis of ethics thinking (motives). <b>GC7.</b> Ability of abstract thinking, analysis and synthesis. <b>SC5.</b> Be able to create and develop efficient communications in management. <b>SC6.</b> Be able to form leadership qualities and demonstrate them in human resource management. <b>SC8.</b> Ability of using psychological technologies in staff relations. <b>SC10.</b> Be able to manage and develop a company. |
| <b>Program learning outcomes according to the EP</b> | <b>PLO7.</b> Create efficient team environment, communication with representatives of different professional groups and in the international context. <b>PLO9.</b> Be able to speak and write state and a foreign language in professional and scientific circles. <b>PLO10.</b> Demonstrate leadership skills and abilities of team work, intercommunication, influence their behavior to solve professional problems. <b>PLO12.</b> Be able to delegate authority and company (subdivision) management. <b>PLO13.</b> Be able to plan and to provide information, methodical, material, financial and staff support of the company (subdivision).  |
| <b>Scope of the course</b>                           | Number of ECTS credits -4; lectures–28 hours; practical classes – 14 hours; self-study – 78 hours.   |
| <b>Signs of the course</b>                           | Academic year – 1; semester – 1; obligatory; number of modules – 2.  |
| <b>Form of control</b>                               | Exam   |
| <b>Prerequisites</b>                                 | The effectiveness of mastering the content of the discipline "Leadership and organizational behavior" will be significantly increased if the student has previously mastered the material of the following disciplines: "Fundamentals of management", "Self-management", "Communicative management".   |
| <b>Hardware and software</b>                         | Technical means for demonstrating learning results (laptop, projector). Microsoft Office suite of software products.   |

## Structure of the course

| Hours<br>(lectures/<br>practical<br>classes) | Topic and contents in brief   | Learning outcomes  | Diagnostic<br>tools                 |            | Name of works   |
|--|---|--|-------------------------------------|------------|---|
| 3/2  | <b>Topic 1. Study of Organizational Behavior</b><br>1. Organizational behavior and its goals<br>2. Why organizational behavior matters?<br>3. ## Course policies

|                                |  |
|--------------------------------|--|
| <b>Control policy</b>          | The following assessment tools and methods of demonstrating learning outcomes are used: current questionnaires; tests; individual assignments and presentations; assessment of individual papers' results; talks and discussions on problematic issues; personal consultations; exam tests. Rector's control is also possible.   |
| <b>Consulting policy</b>       | Semester consultations are conducted according to the schedule approved by the Management and Administration Department at the beginning of the semester.  |
| <b>Retaking exam policy</b>    | A student has the right to retake a module in order to increase his/her rating. It usually takes place within a week after the scheduled module control taking. An exam retaking must be agreed with the study schedule.   |
| <b>Academic honesty policy</b> | Cheating during tests and exams is strictly forbidden (including mobile devices use). Mobile devices are allowed to be used only in online testing – under distance study conditions.  |
| <b>Attendance policy</b>       | The classes attendance is an obligatory component of the educational process. Taking into account some important circumstances (i.e., serious illness, special needs, business trips, family problems, participation in academic mobility programs, etc.), a student can be trained according to an individual timetable approved by the lecturer and the Dean's office. |

## Assessment System

| Distribution of points for reevaluating the student's success | Total points for all types of educational activities | Rating ECTS | Rating according to the national scale                | Scoring | Module 1                      |                   |   | Module 2                      |                   |    | Final term mark    |    | Total on discipline |
|---|--|-------------|---|---------|-------------------------------|-------------------|---|-------------------------------|-------------------|----|--------------------|----|---------------------|
