# Amethyl

Be the light.

---

## Introduction

Amethyl is a datapack that adds more ways to use amethyst, by converting them into an unstable gem, called Amethyl. This datapack is also custom tailored for myself.

---

---

## Getting Started

Everything is crafted with Amethyl Shards, follow this recipe!

(Be careful as it is a very unstable material, it is recommended to contain them in a bundle.)

You have crafted your first pieces of Amethyl Shards, yippee!

~

It's cool but it bites, let's make it friendly! Throw an Amethyl Shard on the ground along with a piece of Quartz and Lapis Lazuli to make Stabilised Amethyl Shard.

~

To prevent dying from the unstable particles emitted from the Amethyl Shards, like how you would react to touching grass after who knows how long, let's create an Amethyl Ring!

Throw a piece of Stabilised Amethyl Shard on the ground with 32 Lapis Lazuli.

It doesn't provide the best protection against Amethyl Shards but hey, maybe the real treasure is the friends we made along the way!

~

You have finished the first steps of Amethyl crafting, I'm so proud of you!

---

## Weaponry

### Amethyl Falchion

Crafting: 64 Amethyl Shards, 10 Dragon's Breath, 1 Nether Star and 1 Netherite Sword

The Amethyl Falchion is a defense-oriented melee weapon, having a lower base damage.

Skills:

- Unstable: The wielder's attacks will wither enemies, they will also be immune to the corrosion of amethyl. However the wielder will not be affected by regeneration.
- Crystal Protection: When 5 hearts or below, the wielder gains resistance II.
- Annihilation:Surge: Every 10 seconds, the wielder creates a crystal shield, absorbing damage and returning it to surrounding enemies amplified.

### Amethyl Knife

Crafting: 64 Amethyl Shards, 10 Dragon's Breath, 1 Conduit and 1 Netherite Sword

The Amethyl Knife is a secondary melee weapon used to support the Amethyl Falchion.

Skills:

- Unstable: The wielder's attacks will wither enemies, they will also be immune to the corrosion of amethyl. However the wielder will not be affected by regeneration.
- Full Speed Ahead: When held, increase movement speed and attack speed.
- Twine Blades: Starting the 4th attack, every attack will fasten the cooldown of Annihilation:Surge by 0.5 second, wielder will also gain resistance I, enemies hit will be inflicted with Lucentbind for 5 seconds, attacking again resets the duration, this ability will wear off 20 seconds after exiting combat.

This skill is tied to Amethyl Falchion.

~Information about Lucentbind can be viewed in the "Special Effects" page. ~

---

## Special Effects

Lucentbind: Unable to be affected by Regeneration potion effect, the target will be slowed, weakened, and highlighted. Additionally, they are unable to use special weapon abilities that are categorized under “Magic Ability”.
