Course: Technical Theatre 5,6 Honors		Course #1375, 1376
Credits: 2 high school credits	Commitment: Two Semester course	Grade: 11-12
A-G Category: meets "G" requirement	Estimated Homework Time: 30 min. per night	
Level of Difficulty: ☒ Moderate	Difficult	Very Difficult
Prerequisite: Completion of Technical Theatre 3,4		

Note: This is a Pathway course required for all students who took Technical Theater 3,4. This is the second year required course in the Technical Theater Pathway.

Course Description:
This course will further develop the concepts and techniques introduced in Technical Theatre 1,2 and Technical Theatre 3,4 with an emphasis on producing theatre. Such positions include: Producer, Stage Manager, Technical Director and Master Carpenter. Due to the nature of the production process, and as outlined in the California Department of Education State Standards, this class may often require students to participate in extra rehearsals and performances beyond the school day. Finally, throughout the year, students will be exposed to Technical Theatre achievements via live presentations and recorded works. After the viewing of these productions, students will achieve an understanding of how to be a drama critic as they analyze the design choices made in the show they experienced.

Note: Participation in extracurricular theater productions is required as part of the course curriculum. No more than 5 hours per semester. The additional hours are determined individually between teacher and student, and do not need to happen all at one time.

This course meets the University of California's G (college prep elective) subject-area requirement. College Preparatory Course (P).
