

ALGEBRA COURSE SYLLABUS

Course Description

This is a course where students will learn algebraic concepts with a focus on linear algebra. Students will learn how to recognize and work with linear equations, connecting the idea that they are functions.

Course Materials

Notebook, Chromebook, calculator (scientific one preferred with sine, cosine and tangent), and a pen or pencil.

Course Textbook

Algebra 1 (A Bridge to Success), Big Ideas Learning, Larson, Boswell (2019)

Assistance

Students are encouraged to ask questions during class or to consult me on any concerns relating to their studies. I am free to help students from 7:50 a.m. to 8:15 a.m. most mornings, during my prep period or other times that may be arranged.

Class Delivery Methods

Class delivery methods include various activities, class videos, class discussions, lectures, SMARTboard activities, projects, and exploration.

Grading Scale and Make-Up Work

Grading scale and the make-up policy for all Frazee High School courses is located in the Student Parent Handbook.

Course Weight

Trimester grades will include both summative assessments at 70% and formative assessments at 30%.

Late Work and Re-assessment

Late work is accepted and re-assessments and redos are offered, the teacher ***may require*** the student to complete additional practices, attend tutoring sessions, or complete another activity before accepting late work or being reassessed.
