Here's how.

This adds or removes the course from your dashboard

Only published courses can be added to the dashboard

6. Please note, removing a course from your dashboard doesn't mean you are withdrawing from the course. If you have a course listed in Canvas that you don't think should be there, you must work with the school counselor to resolve the issue. Contact Ms. Leonard, (801) 987-9497, Ext. 210.
