

My Ideas (list 5)	What's your project? Define your Project: **What will your project do/improve/solve/answer? How many sessions do you think this will take? Are you working by yourself? Who are you working with?	Define who will benefit from your Project ** Who is your audience?
Research ** What do I need to know more about before I start?	Materials needed ** what do I have, what do you need, who will provide it?	Prototype: Sketch or Create a "first draft" and get feedback. Keep any sketches / directions in a folder.
Create and Test:Use this space to write notes for yourself about your tests or observations	Share Your Project: You will be asked by a teacher to share your learning.	Reflection: Write a paragraph about your finished project. Use your notes from Create and Test and include any big ideas you learned.
