Hello 8th graders, my name is Dustin Sharp and I am a 1998 graduate of Sandusky High School. In high school, I played football, golf, intramural basketball, and was a stunt cheerleader. After high school, I attended Bowling Green State University, where I earned a Bachelor's of Science degree in Middle Childhood Education(Social Studies and Science). I received my masters of education through Ohio Dominican in special education. This is my 23rd year teaching in Sandusky City Schools.

Over the years, I have coached football, volleyball, track, and basketball in Sandusky City Schools. I am a diehard Blue Streak who takes great pride in making a difference with today's youth and in the community. I am the leader of a program called the Sandusky City Schools Gentlemen's Club, which is a non-profit organization that consists of young men grades 7th thru 12th that focus on making a difference in the community through volunteering.

My educational philosophy is to create an environment of educational value. I hold high expectations for my students and expect them to be actively engaged in the learning process. My science class is filled with energy, activities, and the willingness to do your best. Also, I will scare you a few times throughout the year as well.

In my spare time, I enjoy staying active, which includes fishing, golfing, traveling, and spending time with my wife Carrie and our two children Leah (17) and Nolan (14). I also have two dogs named Amelia and Frank, a cat named Chester, and 9 chickens.
