Find a Quiz and make it your own

1. Got to Find Kahoots
2. In the search box type a keyword like Algebra or Grammar or you can be specific like Marine life

3. On the top of the search there are filters to help you narrow down a more appropriate set of results
4. Click on the quiz of your choice- preview the questions and timings and if you want to work on this one then you can click on the 3 vertical dots and go to Duplicate.
5. Make the relevant Changes and rename the quiz.
6. You are ready to go!

How to Play the quiz

1. You can get individuals or teams to go onto Kahoot.com and click on the PLAY button on the top right of the screen.
2. You run the quiz on the main screen
3. CHeck the settings of the quiz - you can adjust certain things like do you want to pin code shown for the whole game (for late joiners)
4. Wait for the PIN number to appear.
5. Players will enter the Pin number and then enter a nickname.
6. You can have everyone play as individuals or teams
7. When the questions appear, find the matching answer on your device and touch it/click it.
8. The faster you respond, the more points you score with a correct answer.
9. After each question, the podium will declare the top 5 players …
10. At the end of the game you can Download the results or play again in Ghost Mode.
11. Ghost Mode - Your old version of you (as you had just played) will be represented by a Ghost Icon - you will then compete against the NEW you.
12. If learning has taken place then you should answer questions quicker and score more points.

Can you allocate a Quiz for Homework?

1. Find a quiz
2. Click on the 3 dots and choose Challenge
3. Set the Time frame for the completion for the quiz
4. Copy the Link and share that via Email/Google Classroom, Whatsapp, etc
5. This only works on Devices like Tablets and Cellphones - The student can then see the QUESTIONS and the possible answers on their device but they have a limited time to complete the whole quiz.

Fun Tip

If you are the only person with access to the internet in your class then you can put your students into teams and give each team 4 sheets of paper which are either the same colours as the answers or have the colours written on them. When the question is loaded, the teams need to send a runner with their final answer. As soon as the first one is handed in, you start a 10 second countdown.
