

Assignment: Read / Reality Check

Class, I am not giving you any new *writing* work during Spring Break, as promised. Also: There are no Office Hours during Spring Break. I will, however, hold Office Hours the following Friday, April 14.

To Do:

Your only assignment is to **READ** and Familiarize Yourself with the next two Capstone Assignments – UNITS 3 and 4. Pay special attention to UNIT 3.

You can find them on our OpenLab site under “**OUTLINE of UNITS and ASSIGNMENTS.**”

(Here is a direct link to that page on one of my section’s sites:

<https://openlab.citytech.cuny.edu/schmerlereng1121d397spring2023/schedule-2/>)

I am calling this assignment “**Reality Check**” because we only have a handful of weeks left in the whole semester.

As I have said during class, the assignments from here on out get easier – *but they also come quickly.*

So, yes, please know that this is an assignment. And ask me any questions...during Office Hour...during Classes next week. Ask while you are perplexed. Don’t wait until it is too late.

Have a great Spring Break, Happy Ramadan, Happy Easter, Happy Passover, and see you Mon, April 17.

-Prof. S.

P.S. If you are one of the people who has not come to class recently, please read my two recent Open Lab posts on CHAT GPT and also my new Integrity Policy, now installed on our OpenLab site.
