

Pic Collage

Assignment:

You have a new student who has moved into our class who only speaks Bulgarian. Help your teacher explain numbers and amounts of numbers using PicCollage.

Ways you can accomplish the task:

- create artwork that shows the numbers and take pictures
- gather materials in the classroom and take pictures
- find the numbers/words in the school environment

Include the numeral, a picture, the number word, and anything else you feel is helpful.

Suggestion: before submitting your work, share with a classmate for a peer review.

	Exceeds Mastery 4 point	Meets Mastery 3 points	Approaching mastery 2 points	Below Mastery 1 point
Numbers	At least 7 numbers are shown using the number, word, and examples	5 or 6 numbers are shown using the number, word, and examples	3 or 4 numbers are shown using the number, word, and examples	1 or 2 numbers are shown using the number, word, and examples
