

SL: Do you need a Webdesigner for merch?

Hello <Name>,

<compliment in his/her recent video>

If it comes to merch everyone knows how annoying or/and frustrating it can be from shipping to the law itself.

As a designer/salesman, I can provide you with your custom website and we can create your perfected Merch.

Maybe you are questioning if I am any good so here is an example => [link / Video link]

It's a pleasure you took the time to read this email. - Any tips for a good ending? -

Sincerely <My name>
