Project title: AGIX/ASI Payment Gateway for SaaS products

Milestone number: 3

Milestone deliverable: <https://aitrenches.github.io/asi-gateway/ARCHITECTURE/>
<https://github.com/aitrenches/asi-gateway>

Date: 08/10/2024

Status: Accepted

Feedback (Why accepted, why rejected?):

The team has done a good job in planning out the preliminary technical architecture for the ASI Payment Gateway. They've covered all the essential parts of the system, from user interface to security and blockchain integration. The cross-chain capabilities and focus on AI enhancements set this system apart. Overall, this milestone shows that the project is on track and ready for the next steps.

If rejected, suggested changes:
