Privacy Policy for Chess HLT

Last Updated: October 14, 2026

1. Introduction

This Privacy Policy explains how **Chess HLT** (the “App”), developed and published by **HAVE LIFE TECH SOLUTIONS PRIVATE LIMITED** (“we,” “us,” or “our”), handles information when you use our mobile application.

Chess HLT is an offline chess game designed to provide users with a chess-playing experience without requiring an internet connection or an account.

2. Summary of Our Privacy Practices

Chess HLT does not collect, transmit, sell, or share personal information.

The App is designed to work entirely offline. It does not require internet access, user registration, or sign-in. It does not include advertising, analytics, tracking technologies, or third-party services that collect personal information.

3. Information We Collect

We do not collect personal information or device information through the App.

Specifically, the App does not:

- Require users to create an account or sign in.
- Request names, email addresses, phone numbers, or other personal details.
- Collect location information, contacts, photos, camera data, or microphone recordings.
- Use advertising SDKs, analytics tools, or tracking technologies.
- Transmit information to external servers.

4. Data Stored on Your Device

To provide its features, Chess HLT may store certain information locally on your device, including:

- **Game settings:** Theme, sound, haptics, difficulty, and board or piece styles.

- **Saved games and game history:** Game positions and moves from games you have played.
- **Statistics:** Wins, losses, draws, and other gameplay statistics.
- **Exported PGN files:** Chess game files you choose to export.

This information is stored locally and is not transmitted to the developer by the App.

You can remove locally stored App data by clearing the App's storage through your device settings or uninstalling the App. Exported files saved outside the App may need to be deleted separately.

If you copy game information to your device's clipboard or use an operating-system backup feature, the handling of that information is governed by the applicable operating system, service, and their privacy policies. The App does not control those services.

5. Permissions

Chess HLT does not require special device permissions for its core offline chess functionality.

The release version of the App is intended not to request the Android internet permission. Any permissions used by future versions will be disclosed as appropriate.

6. Third-Party Services

Chess HLT does not intentionally integrate third-party services that collect personal information, including advertising networks, analytics providers, or tracking services.

The App does not send gameplay data or locally stored information to third-party servers.

7. Children's Privacy

Chess HLT is intended for users of all ages.

We do not knowingly collect personal information from children or adults because the App is designed not to collect personal information. The App does not require users to provide personal details to play chess.

8. Data Security

Because gameplay information and settings are stored locally, their security depends in part on your device's security features and settings.

We recommend keeping your device secure and using appropriate device-lock and backup settings. We cannot guarantee the security of information stored or backed up by your operating system or other services outside our control.

9. Your Privacy Choices

You can manage locally stored information by:

- Clearing Chess HLT's app data through your device settings.
- Uninstalling the App.
- Deleting exported PGN files or copied game information separately, where applicable.

No account deletion request is necessary because the App does not require an account.

10. Changes to This Privacy Policy

We may update this Privacy Policy from time to time to reflect changes to the App or applicable legal requirements.

Any updates will be published on the page hosting this Privacy Policy, together with a revised “Last Updated” date.

11. Contact Us

If you have any questions or concerns about this Privacy Policy, please contact us:
