

MY OUTREACH 5: for a newly started women's clothing business through cold outreach via DM.

Hello there!

I hope you're doing well!

I've been through your social media pages and Website. I was genuinely impressed by your new women's modest clothing brand and its uniqueness.

It's a great business field and a good, cultured taste of our community.

I have noticed a roadblock in your business to "reaching out to your target audience and getting Attention."

I can fix this issue!

Here's what I'm going to do,

1st step I'll create a Landing page for your business that captures attention and converts it into leads by gathering contact information. Then I'll convert the leads into customers by writing sales emails.

2nd step I will send newsletters periodically that inform your audience about the latest news, tips, or updates relating to your products.

By doing this, you can largely increase your sales.

"It won't take any of your time, I'll do every single bit."
