For this Key Assignment, you will read and analyze the following assessment data from **two** students:

- Metacognitive Awareness of Reading Strategies Awareness (2.0) **or** Index of Reading Awareness
- *Qualitative Reading Inventory-7th Edition*
  - Graded Word List
  - Level Diagnostic Passages with
    - Background Knowledge Data (Concept Questions)
    - Oral Reading Fluency Data
    - Comprehension Skill Data: Retelling
    - Comprehension Skill Data: Think-Aloud
    - Comprehension Skill Data: Implicit & Explicit Comprehension
    - Comprehension Skill Data: Use/Need of Text to Support Comprehension

Once you have read and analyzed the data provided, you will write data report for each student's teachers which provides:

1. an overview of each assessment given
2. a summary of the results of each assessment given
3. a detailed and specific analysis of the data provided for each assessment
4. instructional recommendations for improving comprehension, including
   - **two** comprehension (metacognitive) strategies (e.g., monitoring comprehension, asking questions, summarizing, etc.)
   - **two** literacy strategies (e.g., locating the main idea, inferencing, asking questions, visualizing, etc.)
   - **two** vocabulary learning strategies (e.g., keeping a vocabulary notebook, semantic mapping, morphological study, etc.), and
   - **one** fluency learning strategy (e.g., repeated reading, echo reaching, choral reading

You must choose <u>one</u> of the options below to choose your <u>two</u> students:

1. Elizabeth-Grade 3 **and** Gregory-Grade 9
2. Elizabeth-Grade 3 **and** Emelda-Grade 11
3. Mario-Grade 7 **and** Emelda-Grade 11
