

## डिजिटल हस्ताक्षर पंजीकरण(IGRS LOGIN)

Digital Signature if not working properly then follow the steps given below.

Step 1 - > Remove Chrome "Signer.Digital Digital Signature, PKI" Extension. Go To Url [https://chrome.google.com/webstore/detail/signerdigital/glghokcicpikglmflbbelbgeafpijkkf?utm\\_source=chrome-ntp-icon](https://chrome.google.com/webstore/detail/signerdigital/glghokcicpikglmflbbelbgeafpijkkf?utm_source=chrome-ntp-icon) and click on "Remove from chrome" button.

Step 2 -> Uninstall Signer.Digital.Chrome.Host.Setup. Go To Control panel and uninstall Signer.Digital Browser Extension.

Step 3-> Restart Your PC.

Step 4 -> Login IGRS and goto menu डिजिटल हस्ताक्षर पंजीकरण again.

Step 5 -> Again Install Signer.Digital.Chrome.Host.Setup. Click Signer.Digital.Chrome.Host.Setup.zip folder and unzip then install.

Step 6 > Click on [https://chrome.google.com/webstore/detail/signerdigital/glghokcicpikglmflbbelbgeafpijkkf?utm\\_source=chrome-ntp-icon](https://chrome.google.com/webstore/detail/signerdigital/glghokcicpikglmflbbelbgeafpijkkf?utm_source=chrome-ntp-icon) url and add chrome and enable extension.

Step 7 -> Restart your PC.
