

# So you wanna raid? (Ally EU)

I'm starting a raid team to go through **MSV, HoF, ToES** and **ToT!** and ~~mayLunabe SoO!~~  
Go away Garrosh

**The idea is to relive the entire expansion, so when we start raiding, everyone should be fully geared in pre-raid (463) items (NO DMF TRINKETS/LEGENDARY STUFF)!**

We'll be raiding on Sundays from 20:00 to 23:00 server time.

Contact me in-game @ Manus#2722, on MMO-Champion @ Restoexpresso or comment on this Google doc!

## The team~~Luna-~~

I'd like to be as few as possible on the raidteam, so we're not benching people (at all, preferably). That means I'll try to "recruit" as few as possible, which in turn requires YOU to have an attendance of a million percent. If you know that you'll have a problem raiding on Sundays, this isn't for you. Urgent IRL stuff is of course accepted, since no one can predict that. (If you can predict it but didn't, you're a bad person, still luv u doe<3)

Tanks:

Daiera - Paladin

OPEN

Healers:

Bharoom - Priest

Tenshi - Shaman

DPS with Healing OS:

Rúyuè - Shaman

Dru - Druid (Manus#2722)

DPS:

Whitebiter - Warlock

Taichiboom - Monk

Moonstár - Warrior

Nyenna - Priest

Reserve:

Entheos - Mage

## Gearing up

When starting the first raid, I expect everyone to be fully enchanted/gemmed/you-name-it, and in 463 gear. Cheating with gear earns you a ticket to the kicktrain to noraidsville. I don't mind having characters in the raid team that has killed everything before, as long as they have 463 gear too. (So if you want, you can relive the MoP raiding experience on your main once more!)

The gear gotten in the raids on Sundays is the gear used, no swapping pieces out for LFR items. That's cheating.

**The only loot you can use, is the gear you get when I'm around. No items above 463 (471) at start. At all.**

Upgrading items is perfectly fine though, and having upgraded all your 463 heroic dungeon items to 471 would certainly help a lot. Legendary items, such as the extra gem in weapons and the meta-gem is fine to use, since they require something from your items (the extra socket requires a weapon from MSV/HoF/ToES/ToT, and the meta requires a 502 headpiece item). Legendary cloaks are not to be used at all. If we decide to make a run through SoO, I will revise this, but don't expect much.

## The raiding

I expect everyone to be up to date with tactics, so that the only things that needs to be explained is how we're gonna do it. Even though you've done it a million times before, I implore you to take a second look at the tactics.

We'll be doing the raids in this order: Mogu'shan Vaults -> Heart of Fear -> Terrace of Endless Spring -> Throne of Thunder.

The plan is to kill the end boss "enough" times in each raid before we move on to the next for gearing purposes. If we blast through MSV on a single night, we'll be going on to HoF soon after. We'll probably be doing HoF and ToES quite a bit, since we probably need a bit more gear for ToT.

While raiding, flasks, food and pots will not be brought to you. It is not required to participate but greatly appreciated.

## Communication

We'll be using TS3 to communicate, and since we're not doing this for gear, it's pretty obvious we're doing it for fun, so please be able to be on TS! If you have a mic and wants to chat too, that's even better!
