

How to Get Started with Chatboz

Follow these steps to start using Chatboz and integrate it seamlessly into your website.

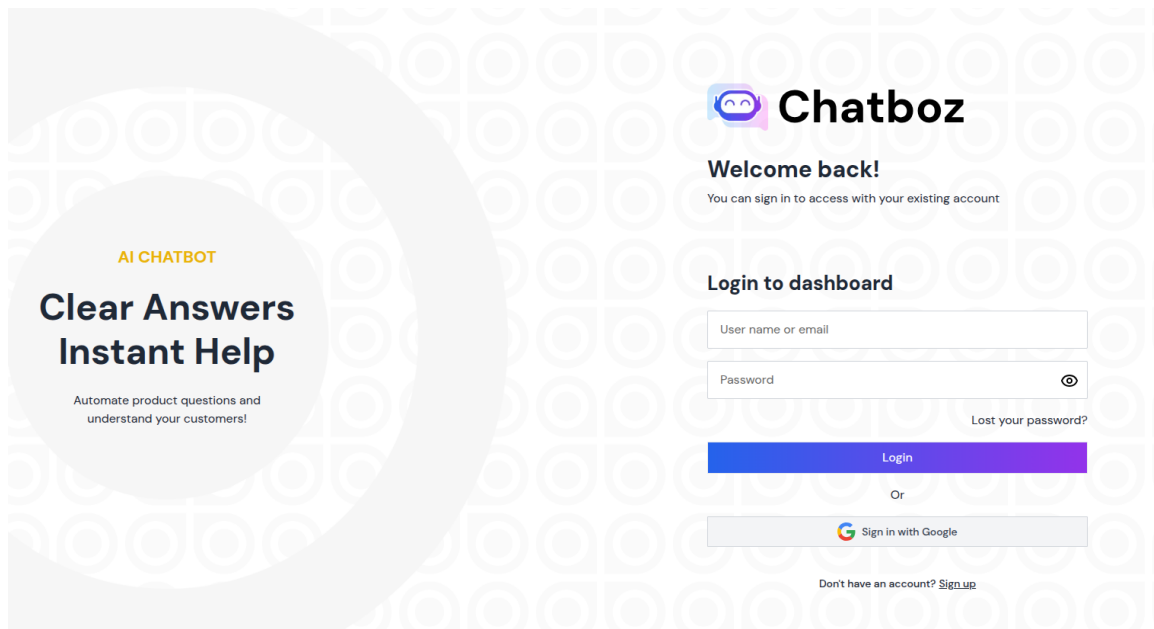

Step 1: Visit Chatboz Website

Go to the official Chatboz website: <https://chatboz.com>

Step 2: Create an Account

You can register for a Chatboz account in one of two ways:

1. Sign up using your email address.
2. Or choose to log in with your Google account for a faster setup.

Step 3: Create Your Site

After logging in for the first time, you will be redirected to the "Create Site" page.

Fill in all the required fields to set up your first site.

This step is essential before you can connect Chatboz to your website.

Step 4: Connect Chatboz to Your Website

There are two ways to connect Chatboz to your website, depending on whether you use WordPress or a custom platform.

Option 1: Using the WordPress Plugin

If your website is built on WordPress, you can install the official AI Chatboz plugin. This plugin is specially designed and optimized for connecting Chatboz with your WordPress site.

👉 You can follow the full integration and data synchronization guide here:

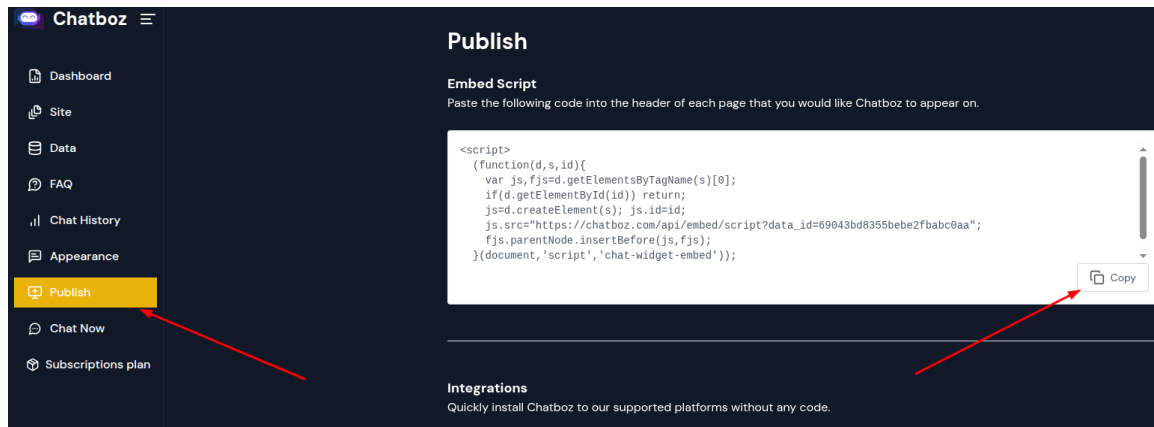

[W Guide to Integrating the AI Chatboz WordPress Plugin for Connecting and Synchronizi...](#)

Option 2: Using the Embed Script (Non-WordPress Sites)

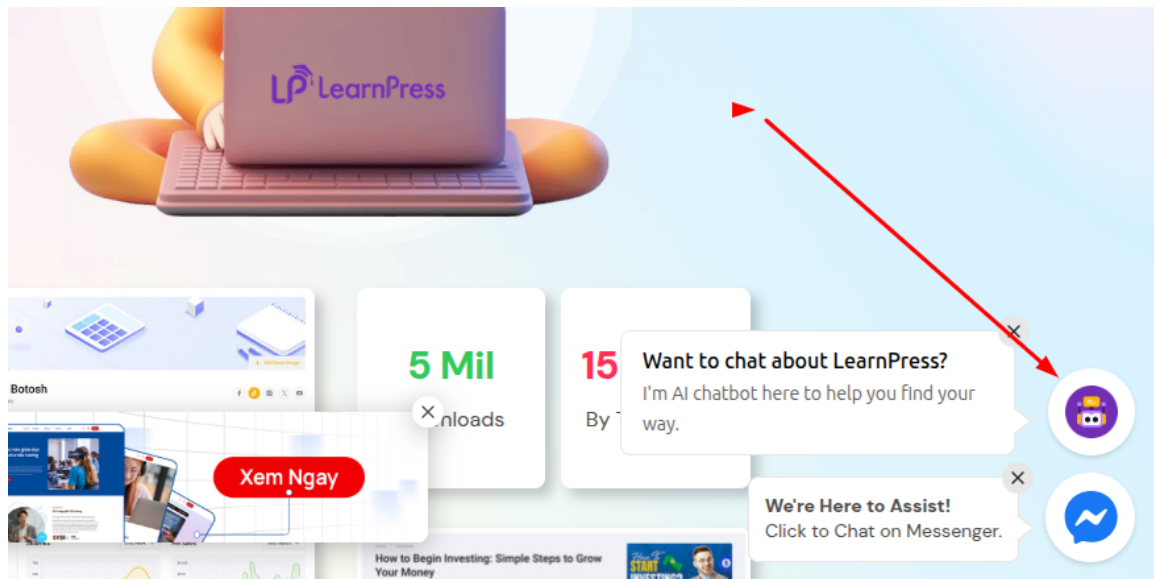

If you're not using WordPress, don't worry — you can still easily integrate Chatboz into your site using the embed script method.

Follow these steps:

1. Log in to your Chatboz account.
2. From the Dashboard, go to the “Publish” menu.
3. Locate the “Embed Script” section and click “Copy”.

4. Paste the script into your website’s header, footer, or inside the <body> tag.
(You may need some basic technical knowledge to handle this step.)
5. Once the script is added, the Chatboz chat widget will automatically appear on your website.

Customizing the Chat Widget Appearance

You can easily personalize the look and feel of your Chatboz widget to match your website's branding.

Follow these simple steps:

1. In your Chatboz **Dashboard**, click on the **"Appearance"** menu.
2. You'll find various options to customize every aspect of your chat widget — including colors, text, button style, background, and more.
3. Once you're satisfied with your design, click **Save**.

✅ These changes will automatically apply to the chat widget displayed on your website, ensuring your chatbot perfectly aligns with your site's visual identity.
