

Dear Editor-in-Chief,

Journal of Mahanakorn Veterinary Medicine (JMVM)

With the consent of all authors and permission from the appropriate authority, I am pleased to submit this manuscript entitled **“Insert Full Title of Manuscript”** to JMVM for your consideration for publication in the near future. This manuscript has not been published elsewhere, in part or in full, and is not under consideration by any other journal.

The author(s) would like to declare the use of generative (AI) statements:

☐ This manuscript does not include any generative content by AI (e.g., generative texts, figures, or other information).

☐ This manuscript was prepared using AI generative content. The author(s) use **[Name of AI tool]** to generate [Type of content (e.g., introduction/methodology/results/discussion/conclusion contexts, statistical analysis, images, etc.)]. After using this tool, the author(s) reviewed and carefully edited the content. The full responsibility for the accuracy, integrity, and originality of the AI-generated content belongs to the author(s).

The Manuscript entitled **“Insert Full Title of Manuscript”**

The study [Insert a summary of the key findings and significance, approximately 2-3 lines]. The findings may offer valuable insights for the veterinary science community and align with the scope and readership of JMVM.

The manuscript has been approved by all co-authors, and all necessary institutional and ethical approvals have been obtained.
