## Introduction

Through this assessment we consider the main protected characteristics of equality with regards to our plans and processes. This is to ensure there is no discrimination against protected characteristics.

It is important to note that as a school we also consider other characteristics when making decisions, including single parents and sole carers as well as, mental health.

The assessments should stick to facts and not opinions, although this can be challenging when gathering views from a range of stakeholders.

To complete the assessment views have been sought from a range of stakeholders, including:

- Sharing initial assessment asking for feedback from all staff
- Meeting with staff, governors ...
- Pupils, how?
- Parents, how?

## Protected Characteristics

Protected characteristics under the Equality Act 2010 are:

- Age\*
- Sex
- Race
- Disability
- Religion or belief
- Sexual orientation
- Gender reassignment
- Pregnancy or maternity
- Marriage and civil partnership\*

*\* Note: the first and last protected characteristics above are listed in the Equality Act 2010, but are not listed in the DfE guidance mentioned above. Age as a protected characteristic does not apply to pupils in schools, so pupils can be treated in ways appropriate to their age and stage of development without risk of legal challenge.*
