Primary Hub: El Paso, Texas Metroplex

COMPANY OVERVIEW

Patelix Logistics LLC is a logistics provider focused on last-mile delivery and route coordination. We bridge the gap between regional fulfillment and sorting hubs and residential delivery windows. Our model centers on building a fully vetted network of independent contractors to support dedicated routes, seasonal demand, and expansion into new markets. Hands-on owner oversight gives clients direct communication and accountability from onboarding through daily operations.

CORE COMPETENCIES

- High-Density Final-Mile Delivery: Specialized in rapid, multi-stop residential and commercial parcel distribution.
- Agile Dynamic Fleet Scaling: Capacity to deploy an immediate network of reliable personal vehicles (sedans, SUVs, and cross-overs) optimized for high-volume sorting.
- 7-Day Operational Readiness: Full weekend deployment capabilities to eliminate terminal backlogs and maintain transit-time KPIs during peak operational hours.
- Advanced Tech-Platform Integration: Experienced in mobile route navigation tracking, real-time dispatch monitoring, and strict Proof-of-Delivery (POD) picture compliance.

DIFFERENTIATORS

- Peak Season Surge Capacity: Our localized El Paso network is structured specifically to absorb high-volume parcel flows
- Remote Management Efficiency: Run by dedicated logistics operators who monitor real-time delivery metrics, route completion percentages, and driver load-out punctuality remotely.

- Strict Independent Contractor Vetting: We internally maintain driver compliance standards, ensuring all operators pass rigorous background screenings and maintain excellent vehicle reliability before hitting a terminal route.

CORPORATE DATA & COMPLIANCE

- Entity Type: Limited Liability Company (LLC)
- Tax ID / EIN: 43-2258419
- Geographic Coverage: El Paso, TX and surrounding communities, with availability to expand into new markets.
- Insurance Guardrails: Committed to obtaining coverage that meets client contract requirements before commencing delivery operations.
