

Staff Shout Out!

Meet Ms. Schallhorn...

All about me...

This is my first school year at Beaverton Elementary and I am loving it. I am surrounded by the most supportive team and the cutest students. My journey started when I moved to Michigan to attend CMU from a small town in Illinois. Growing up I always knew I wanted to be a teacher because I wanted to make a difference. I love advocating for others and just sharing my love. I enjoy playing and coaching volleyball. I also love to play games, spend time with my friends/dog, and travel to new places with those closest to me.

Years Taught: First full school year!

My WHY for teaching...

I teach because I want EVERY student to know they are special, capable, safe, and most importantly LOVED. I spend my time creating meaningful relationships with my students and all of the students I interact with as I believe it is the foundation for quality learning. I want students to know that I will accept, love, support, and care for them every single day; easy or hard. I want to break down their insecurities and build confident and independent students so they can achieve their biggest goals. I teach to change their world.
