INSTRUCTIONS FOR PHOTOGRAPHER

1. Explain the purpose of taking images, what the photo will be used for, where it will be used, how long it will be kept and how the individual can ask for the photo to be removed. Show examples of previous communications. Consent must be obtained in circumstances that ensure that the individual is not coerced in any way and that they understand that they are part of a story that might be disseminated locally and globally. Where needed, use a translator to make this explanation and record their name on the consent form.

2. Who can give consent for a child?

Ensure that the adult providing consent for each child is the parent or legal guardian. A teacher is not a legal guardian and cannot provide consent for the child.

Where a child is over 10 years old, ask them for their consent as well. This doesn't need to be documented but it is best practice.

3. Fill in the names of each parent / guardian giving consent for each child. Ensure both the name of the child and the parent and/or guardian giving consent are listed and that their photograph is taken together. Once the form is filled in, take a photograph of the adults with the consent form. Where possible, take group photos.

For protection reasons, individuals' names may be changed if their story is shared publicly. Check with each individual if they have a preferred name that they would like us to use in this case. Record this name under 'Pseudonym(s)' on the consent form.

4. Store both the photos and this proof of consent photo(s) within relevant project folder, and put a shortcut to this folder in the central record of all photos (**INSERT THE LINK TO THIS RECORD**)
