

Underrated Verbs Battle Royale

These are the 700 most common verbs in English.

- Change your writing mode to “suggesting” on the top right.
- Start from a random point of the list and proceed in any order you want.
- Next to each verb, write the title of a game (or game series) that incorporates the w in a meaningful way in its gameplay.
Eg: shoot - [Call of Duty](#)
- You can add a game to a verb that already has one, but only if the action is significantly different. Only one game-verb combination per person.
Eg: shoot - [Call of Duty](#), [Pokemon Snap](#)
- The collective goal is to go through most of the verbs, but the winner is the student who makes the most edits so don't overthink it
