WVI DOLPHIN FOUNDATION

Leadership and Life Skills Mentorship Program Info-tech, Cyber Security & AI
Tuesday, September 20, 2022
at Google Code Next Labs – HQ in Manhattan

Module Outcome Summary & Metrics

Our first STEM Module focused on Info-tech, Cyber Security & AI was a great success, per the below metrics we were able to achieve. This module opened opportunities for extended partnership with the NYPD Community Affairs – Explorers Program, mentee recruitment from the NYPD Housing Authority, as well as with Google Code Next.

Mentees

- Our preregistration list included **62** mentees
- Our actual module attendance comprised of **34** mentees, **7** volunteer mentors, and several NYPD volunteers:

Mentees:

- **30** new kids – of which **28** signed up to the Leadership and Life Skills Mentorship Program through our online platform.
- **4** returning mentees

NYPD Youth Recruitment

We are happy to report that **20** of our new mentees were recruited from the NYPD and their youth programs:

- Explorers Program
- NYPD Housing Authority – Police Service Area 5
- Brooklyn Community Center

Google Partnership

All **34** mentees in attendance were exposed to the Google Code Next lab in Manhattan and were briefed on their program for high school students. Mentees were able to see and speak with Google Code Next coaches and their facility manager.

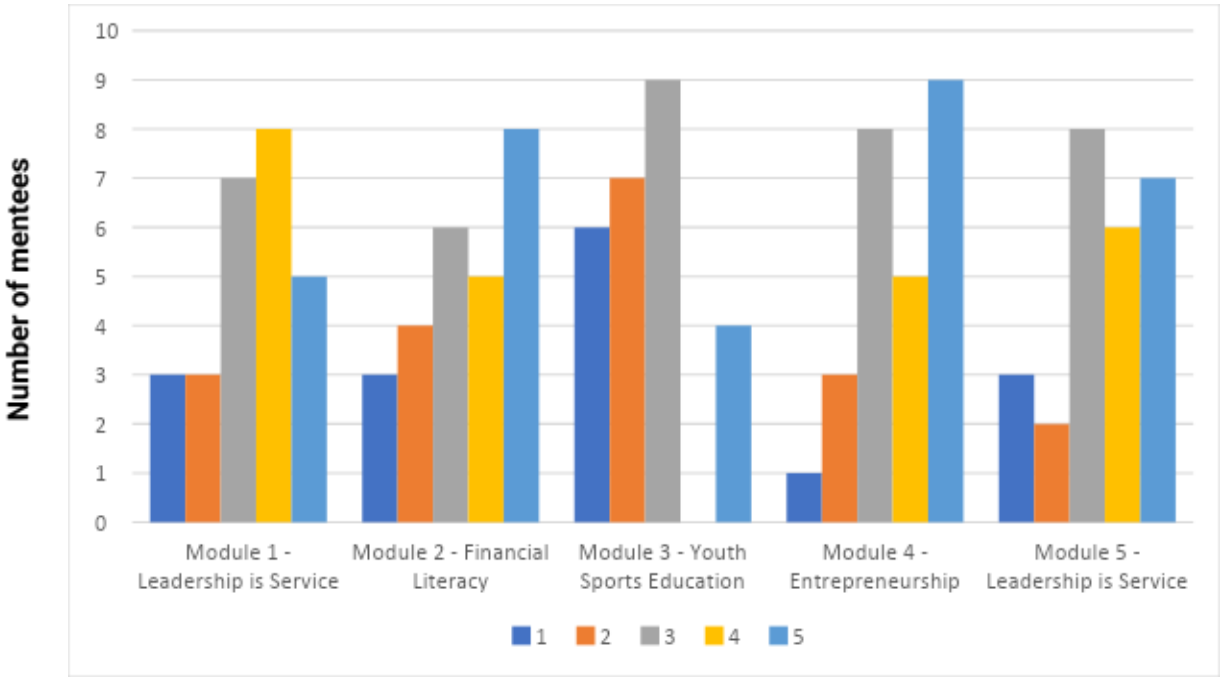

18 mentees are interested in learning more about the Google Code Next Program – and are confident about signing up !

Mentee Feedback

We surveyed the mentees that joined our Info-tech module, to learn about what other areas of interest they have already available virtually on our platform. Here is the feedback we received:

Highlights:

- **Entrepreneurship** – 9 mentees ranked this as their highest interest
- **Financial Literacy** – 8 mentees ranked this as their highest interest

Ranking 1 – 5, Low to high interest
