

NUM COUNCIL

NUMcouncil.reddit.com

What is NUM Council?

The NUM Council is a group made up of faction leaders that help to keep the growing world of NUM running. They approve new nations, help bridge communication, and offer sort of over-arching confederation to help distribute plots and information. It also serves as a place to have some meta-planning.

The Council consists of:

- One councilor from each Faction (Domain, Nation, and Organization), elected by their faction
- A President and Vice President of Council, elected by the Council

Councilors

- To be a Councilor, you must have a number and be elected by your faction.
- Councilors are styled “The Noble” and the current and past Presidents are styled “The Very Noble”.
- Only members of the Council can post on NUMCouncil.

The President and Vice President

- The President is elected by a majority vote of Council on the 1st day of every month. The President appoints a Vice President.
- If the President’s seat on the council is lost while in office, the President will still serve the rest of their month. If the Vice President’s seat is lost, the President may appoint a replacement.
- The President is considered the “head” of the Council, and should be a general leader of NUM. They may appoint people to positions to do certain jobs.
- The Vice President supports the President and may fill in when the President is unavailable.

New Nations

In order to be a new nation you must:

- Have 10 members, one of which is willing to be Councilor
- Complete the [New Faction Form](#)
- Receive a majority of votes from the Council.
- Not coincide with the naming/theme of a pre-existing nation

Discipline

- Organizations may have their membership revoked by a majority vote of Council.
- Nations may have their membership revoked with a ¾ vote of Council.
- Domains may not have their membership revoked, but may have their voting rights suspended for 30 days with a ¾ vote of Council.

Motions and voting

- A member who wishes to present a motion simply must post their idea/proposal to r/NUMCouncil with the flair “Motion”. Someone else who agrees with the proposal may reply “Seconded”. Members can then comment on the thread for discussion.

- Every **Wednesday**, the moderators will post a ballot for 24 hours which includes any motions which have been seconded and have been open for discussion for at least 3 days.
- Motions that receive a majority will pass. Motions with multiple-choice should seek a majority and may require a runoff.
- Motions that pass get turned into laws.
- Only Domains and Nations may vote.

The Mods

- The Mods will offer information and guidance to the Council when necessary.
- The Mods also will pass plot hooks to the Council, to distribute to their factions—these are great ways to get people involved.
- Do you have a cool idea or suggestion? Post it with the “Proposal to Staff” flair.
- The Mods also have the right to veto really bad ideas. They do so with love :)
