

Texas Mothers of Multiples

2022 Midterm Report

Membership VP

October 8, 2022

The Putnam household has been very busy even though we are two members short. Jack is attending the University of Houston. He joined the water polo team and made LOTS of new friends. Owen is in Odessa at the University of Texas at Permian Basin. We haven't seen him yet but hope to see him in a few weeks at a swim meet in San Antonio. Kate is in 8th grade, running cross country, in choir and swimming.

As Membership VP, I have updated the member list. If your club has had elections, please email me your new officers list so I can update our information. membership@tmom.info

I have updated the renewal form for 2022-23. I need to add the updated Paypal buttons and upload the form to the website. The form will be updated again before convention. Do we need all the information we request on the renewal form? Do we need physical addresses for club representatives or the clubs?

I had an inquiry about starting a new club. Aside from filling out our renewal form (which I also need to update) and sending MoA's how to start a club, what other contacts, resources or information should I send?

I need help/guidance on the Area Allocation Map. Does it have to be three areas? Should we divide by number of clubs or by number of members? Obviously, the DFW & the Houston area have larger numbers of both, and that would leave all other clubs as the third area even though they are not geographically near each other.

Thank you,

Danielle
