

All field trips booked for Georgia public schools are specifically tailored to meet Georgia Standards of Excellence. Each field trip rotation is designed so that both teachers and students will benefit from an experience that will solidify learning that takes place at school. See each description for a specific list of Georgia's standards that can be met by the learning experience.

Water Excursion:

-Tour the forested swamp via jon boat to learn about flora, fauna, and hydrology. (Additional cost)

Time: 30-40 minutes
