Dear (name),

By the time you finish reading this letter, at least one American will have been diagnosed with blood cancer. Unfortunately, everyone seems to be touched by cancer in some way. In fact, the World Health Organization estimates that new cancer cases will exceed 21.4 million annually by 2030. Cancer is a devastating disease, and one that we, **TEAM NAME**, are committed to helping cure.

The Leukemia & Lymphoma Society (LLS) is dedicated to curing blood cancers, and they are getting results. The advancements LLS has made in immunotherapy has led to breakthroughs in brain, colon, and breast cancer treatments. Since 2017, LLS helped advance 75% of FDA-approved blood cancer treatment options. LLS is currently supporting more than 240 of the world's most trailblazing scientific investigators to continue searching for treatments and cures. In addition to raising vital funds for cancer research, LLS works tirelessly to provide patients with affordable access to treatment. To that end, **I/candidate name OR name of student and relation is/am** participating in the 2025 Student Visionaries of the Year Campaign.

The Student Visionaries of the Year campaign is a philanthropic youth leadership development program in which local high school students compete to raise the most funds to support blood cancer research. Students form powerful fundraising teams and compete in honor of a local high school student who is a blood cancer survivor. This year, **candidate/team name's goal** is to raise **(insert goal)** for The Leukemia & Lymphoma Society.
