

Session 06:

Exploring the Future of M&E Education!

The landscape of Monitoring & Evaluation education is evolving rapidly, and our panel, “Leveraging Experience from Existing Initiatives for the Future of M&E Education” (part 1), will spotlight key insights on Teaching, Research, and Dissemination. Experts will share valuable lessons from established academic programs, highlighting what’s working and where the field is heading.

Featuring:

- ◆ Dr. Anis Brik, Professor of Evaluation, College of Public Policy, Hamad Bin Khalifa University, Qatar
- ◆ Takara Tsuzaki, Evaluation Consultant and Member, Japan Evaluation Society
- ◆ Prof. Maheeka Seneviwickrama, Head, Department of Community Medicine, University of Sri Jayewardenepura, Sri Lanka
- ◆ Dr. Rajib Nandi, Vice President- Knowledge Management and Capacity Development, Sambodhi Research and Communications, India
- ◆ Dr. Sofia S. Rimawi, Assistant Professor, Faculty of Education, Birzeit University, Palestine and President, Palestinian Evaluation Association
- ◆ Prof. Jeevaretnam Kennedy, Dean, Faculty of Postgraduate Studies, Eastern University, Sri Lanka

This session will dive into the opportunities and challenges of launching new M&E courses and explore innovative ways to enhance learning experiences. By addressing barriers and reimagining educational practices, this panel aims to pave the way for impactful and accessible M&E programs worldwide. We will have an inspiring exchange of ideas and strategies that could shape the next era of M&E education!
