Reviews	“The SDCOE systems evaluation services empowered our leaders to engage in critical discussions with the right set of tools, which positively impacted the lives of students.” –Dr. Richard Lawrence, Executive Director of Secondary Education, Oceanside Unified School District “Our work with the SDCOE team was incredible. Not only did they guide us through the process of analyzing our current practices, they provided us with best practices and tools to improve our overall course development system. We then replicated this process for other systems and the results we have seen have been exponential.” –Leslie Wilson, Assistant Superintendent, Ramona Unified School District “I LOVE this class! I really enjoyed the combination of facilitated discussions and breakout conversations where we could dive deeper with our peers. I think that this is probably the best graduate level class I have taken. It feels authentic and it also feels like my prior knowledge is valued as part of my current learning experience.” --Krista Ghaman, Preliminary Administrative Services Credential Candidate
