Currently I'm packing up and moving out of Burlington, getting ready to graduate this weekend. I'll be traveling until June 1st, and then I have some quick stuff to do in Newburyport, I think the next time I'll reliably be in Maine will be around June 4th/5th.

I then should be around until around the 20th, likely with a break in the middle so I can practice MOB and disabled rudder and similar drills with my Bermuda Crew before we leave the 23rd, with me probably returning stateside by July 4th/5th, where I'll be back up in Maine full time. Scheduling looks pretty great for the summer - one note I might have is that there are a few really big weekend regattas around the east coast that I'd heavily be interested in going to, but we can talk more about that as the time approaches.

Can't wait to see all the new systems and upgrades, and maybe even try out that Rising Wind whiskey bar ;)

Talk soon,
Henry
