

# ESTIEM Magazine

*The ESTIEM Magazine aims to provide an insight into the world of IEM from an academic and professional point of view and engage ESTIEMers in the network by showcasing the outcomes of ESTIEM's activities.*

---

ESTIEM Magazine is the oldest ESTIEM project, created in 1991. 36 years and 70 issues later, it is still sharing the most relevant and popular news from the field of IEM, innovations in the tech world, and most importantly, being a window to all ESTIEM activities.

Every six months, the ESTIEM Magazine team is working hard on gathering and connecting anyone who is interested to contribute by sharing their knowledge and experience with our audience, and that way making each new issue better and more attractive. If you want to join in creating magic together with the vast ESTIEM Magazine team, here is your chance!

## Article Acquisition Team Member

The ESTIEM Article Acquisition team members work on managing the content of ESTIEM Magazine, making sure that it is a representative of ESTIEM and communicating with authors.

Tasks of the **Article Acquisition Team Member** will include the following:
